Equation (2) is incorrect as published. It should instead be rendered as follows:

$$l_x^e = \exp\left(-\frac{\lambda\beta}{r}\exp\left(-1/\beta\right)\left(\exp\left(rx/\beta\right)-1\right) + \alpha\gamma\exp\left(-x/\alpha\right)\right)$$

This correction does not affect any of the analysis or conclusions of the article.
