Correction to: Current Ophthalmology Reports.

<https://doi.org/10.1007/s40135-020-00235-z>

The original version of this article unfortunately contained a mistake. The sentence “Despite no clear correlation between intravitreal injections and retinal thinning, attempts have been made to mitigate the potential effects of post-injection IOP spikes [61].” was deleted without any instruction from the author.

The original version has been corrected.
