In the original publication of the article, there is a mistake in the 5th paragraph of the Introduction section.

“Malaysia was ranked as 74 ad 65 in PISA 2009+ edition and PISA 2012, respectively which is in the bottom third, and below the OECD average in the mathematics, science and reading literacies” should be written as:

“Malaysia was ranked in the bottom third out of 74 and 65 countries participated in PISA 2009+ edition and PISA 2012 respectively, and below the OECD average in the mathematics, science and reading literacies”.
