Radboud University is a student-oriented research university that aspires to be one of the best in Europe. The goal is for all research programmes to be rated 'very good' and for degree programmes to rank among the top 25% of Dutch universities.

Radboud Scholarship Programme

Purpose: The Radboud Scholarship Programme offers a select number of talented prospective non-EEA students the opportunity to receive a scholarship to pursue a complete English-taught Master's degree programme at Radboud University

Eligibility: You will only be eligible to obtain a Radboud Scholarship if you: 1. hold a non-EU/EEA passport. 2. are not eligible for the lower EEA tuition fee for other reasons. 3. have (will obtain) a Bachelor's degree achieved outside the Netherlands, have no degrees achieved in the Netherlands and did not receive any previous education in the Netherlands. 4. have a high level of language proficiency. 5. have been fully admitted to the English-taught Master's degree programme starting 01 September as stated in the formal letter of admission. 6. are able to comply with the conditions for obtaining a visa for the Netherlands

Level of Study: Graduate

Type: Scholarship

Frequency: Annual

Country of Study: Any country

Application Procedure: From the eligible candidates the Radboud Scholarship holders will be selected based on the following criteria: 1. Talent: this means that you must have outstanding study results in your present field of study. 2. You are expected to be a promising student in your desired field of study at Radboud University. 3. Proven academic quality and good results of your prior education for example through grades, test scores, publications. 4. Quality of the recommendations in the two reference letters. 5. Motivation: based on your motivation letter for the Master's programme

Closing Date: 1 March

Funding: Private

Radboud Scholarships Programme for Masters Students

Purpose: The Radboud Scholarship Programme offers a select number of talented prospective non-EEA students the opportunity to receive a scholarship to pursue a complete English-taught Master's degree programme at Radboud University Nijmegen

Eligibility: Applicants will be eligible to obtain a Radboud Scholarship if they hold a non-EU/EEA passport; are not eligible for the lower EEA tuition fee for other reasons; have been fully admitted to the English-taught Master's degree programme as stated in the formal letter of admission; are able to comply with the conditions for obtaining a visa for the Netherlands; are enrolled at Radboud University as a full-time student for the academic year and Master's degree programme for which the scholarship will be awarded

Level of Study: Graduate

Type: Scholarship

Value: The scholarship consists of a partial tuition waiver. The tuition fee will be waived to the level of an EEA student. In addition the Radboud Scholarship also covers costs such as those for visa, residence permit, health insurance and liability insurance. This amounts to about €700. For detailed information, please visit www.ru.nl/english/education/master's-programmes/financial-matters/scholarships-grants/read_more/rsprogramme/

Country of Study: Netherlands

Application Procedure: The application for admission and the application for the scholarship is fully integrated, there is no separate procedure for the scholarship. Applicants must apply for a Radboud Scholarship by indicating during their application for admission that they wish to apply for a Radboud Scholarship. Applicants will then be requested to upload three additional documents including two recommendation letters and a curriculum vitae. Applicants also must have finalized their request for admission before the deadline

Closing Date: 1 April

Additional Information: For more information about the scholarship programme, contact the International Office on rsp@io.ru.nl

Contact: Mr Scott Walter, Assistant Director, Grant Administration

The Research and Education Foundation of the Radiological Society of North America (RSNA) provides grant support to medical students, residents, Fellows and full-time faculty members of departments of radiology, radiation oncology and nuclear medicine.

Medical Student Research Grant

Purpose: This R&E Foundation grant gives medical students the opportunity to gain research experience in medical imaging while they're still in school. Recipients will define objectives, develop research skills and test hypotheses,

Eligibility: 1. You must be an RSNA member to apply for the Medical Student Research Grant. If you're a non dues-paying member, your scientific advisor or your co-investigator must be a dues-paying member. You must also meet the following criteria. 2. You must be a full-time medical student at an accredited North American medical school. 3. You must commit to work full-time for at least 10 weeks on your research project. 4. Your research project must take place in a department of radiology, radiation oncology or nuclear medicine in a North American medical institution, but this doesn't have to be the same institution where you're enrolled as a student. 5. You cannot have been a principal investigator on a grant or contract totaling more than US\$60,000 in a single year. This includes single and combined grants and contracts from government, private and commercial sources. 6. You and your principal investigators cannot be employed by any for-profit, commercial company in the radiologic sciences. 7. You cannot submit more than one grant application to the RSNA R&E Foundation a year, and cannot have a concurrent RSNA grant. 8. Funding from other grant sources must be approved by foundation staff if it wasn't described in the original research plan

Level of Study: Research

Type: Research grant

Frequency: Annual

Country of Study: Any country

Application Procedure: For detailed information, check the following link, ektron.rsna.org/uploadedFiles/RSNA/Content/R_and_E_Foundation/Grants_and_Awards/RMS_PoliciesProcedures.pdf

Closing Date: 1 February

Radiological Society of North America Education Seed Grant

Subjects: Radiologic sciences

Purpose: To provide funding opportunities for individuals with an active interest in radiologic education

Eligibility: Applicants must hold a faculty position in a department of radiology, radiation oncology, or nuclear medicine within a North American, educational institution and must have completed advanced training and be certified by the American Board of Radiology (or equivalent), or on track for certification. Applicants must not have received

grant/contract amounts totaling \$50,000 or more in a single calendar year as principal investigator

Level of Study: Research

Type: Grant

Value: Up to \$30,000 to support the preliminary or pilot phase of education projects, not to supplement major funding already secured. No salary support for the principal investigator will be provided

Frequency: Annual

Country of Study: Any country

Application Procedure: Application can be submitted online

Closing Date: 10 January

Funding: Foundation

For further information contact:

Email: rmurray@rsna.org

Radiological Society of North America Institutional Clinical Fellowship in Cardiovascular Imaging

Subjects: Cardiovascular imaging

Purpose: To provide opportunities for radiologists early in their careers to gain experience and expertise in cardiovascular imaging

Eligibility: Open to citizens or permanent residents of a North American country who have completed their residency training in the radiological sciences. Fellows must also hold an MD or the equivalent as recognized by the American Medical Association and must be ACGME-certified in radiology or be eligible to sit for such certification

Type: Fellowship

Value: US\$50,000 per year paid to a department. The Foundation does not pay overhead or indirect costs

Length of Study: 3 years

Frequency: Annual

Country of Study: Any country

Application Procedure: Applications must be submitted by a department in preparation for the recruitment of a Fellow into an existing cardiovascular imaging training programme. Application forms are available from the website

Closing Date: 1 June

For further information contact:

Email: bcartalino@rsna.org

Radiological Society of North America Medical Student Grant Program

Subjects: Radiology and related disciplines

Purpose: To make radiology research opportunities available for medical students early in their training and encourage them to consider academic radiology as a career option

Eligibility: Open to full-time medical students at an accredited North American medical school

Level of Study: Research

Type: Grant

Value: US\$3,000 for an 10-week (minimum) research project, to be matched by the sponsoring department (US\$6,000 total), as a stipend for the medical student

Length of Study: 1 year

Frequency: Annual

Country of Study: Any country

Application Procedure: Applicants must complete an application form available from the website rsna.org/foundation

Closing Date: 1 February

Funding: Foundation

Contributor: Individuals, private practice, corporate

For further information contact:

Email: bcartalino@rsna.org

Radiological Society of North America Research Resident Program

Subjects: Radiology, radiation oncology and nuclear medicine

Purpose: To provide opportunities for individuals to gain further insight into scientific investigation, and to develop competence in research and educational techniques and methods

Eligibility: Open to citizens or permanent residents of a North American country. Applicants should be in residency training so that the award can occur during any year after the 1st year of training and should have an academic degree acceptable for a radiology residency

Level of Study: Postgraduate

Type: Grant

Value: US\$30,000 designed to replace a portion of the resident

Length of Study: 1 year, non-renewable

Frequency: Annual

Country of Study: Any country

Application Procedure: Applicants must complete an application form, available from the website

Closing Date: 15 January

For further information contact:

Email: bcartalino@rsna.org

Radiological Society of North America Research Resident/Fellow Program

Subjects: Radiology or related disciplines

Purpose: To provide young investigators not yet professionally established in the radiological sciences an opportunity to gain further insight into scientific investigation and to develop competence in research techniques and methods

Eligibility: Applicants must be a resident or fellow in a department of radiology, radiation oncology or nuclear medicine within a North American educational institutions at the time of application

Level of Study: Doctorate, Postdoctorate

Type: Fellowship

Value: US\$30,000 for a 1-year Research Resident project or US\$50,000 for a 1-year Research Fellow project, to be used for salary and/or non-personnel research expenses

Length of Study: 1 year

Frequency: Annual

Country of Study: Any country

Application Procedure: Applicants must complete an application form, available from the website rsna.org/foundation

Closing Date: 15 January

Research Seed Grant

Purpose: This R&E Foundation Research Seed Grant gives investigators around the world the chance to define objectives and test hypotheses in preparation for larger grant applications at corporations, foundations and government agencies

Eligibility: Any investigator from anywhere in the world with an academic appointment may apply for this grant, as long as you are an RSNA member. If you're a non dues-paying member, your scientific advisor or your co-investigator must be a dues-paying member. You must also meet the following criteria: All applicants; 1. You must hold a full-time faculty position in a radiology, radiation oncology or nuclear medicine department at an educational institution. 2. If you aren't currently a full-time faculty member, but will be by the time funding starts, a letter from the department chair must be included in your application. 3. You cannot have been a principal investigator on a grant or contract totaling more than US\$60,000 in a single year. This includes single and combined grants and contracts from government, private and commercial sources. 4. You and your principal investigators cannot be employed by any for-profit, commercial company in the radiologic sciences. 5. Funding from other grant sources must be approved by foundation staff if it wasn't described in the original research plan

Level of Study: Professional development, Research

Type: Research grant

Value: Upto US\$40,000 for a one-year project

Frequency: Annual

Country of Study: Any country

Application Procedure: Applications should describe the unique nature of the research effort independent of existing research efforts. Our Research & Education Foundation provides a critical source of support for investigators. Since the Foundation's inception we've awarded over 1,450 grants. That's more than US\$60 million in funding for radiology research and improving patient care

The Research Corporation (United States of America) was one of the first United States foundations, and is the only one wholly devoted to the advancement of academic science. An endowed organization, it makes grants totalling US\$5,000,000–7,000,000 annually for independently proposed research in chemistry, physics and astronomy at United States and Canadian colleges and universities.

Research Corporation (United States of America) Research Innovation Awards

Subjects: Physics, chemistry or astronomy

Purpose: To assist innovative research programmes for faculty of PhD granting departments

Eligibility: Open to faculty members whose first tenure track position began in either the preceding or the current calendar year are eligible to apply

Level of Study: Doctorate

Type: Research grant

Value: US\$35,000 for equipment and supplies, graduate stipends and some other expenses. The award does not cover overheads

Frequency: Annual

Study Establishment: Research universities with PhD granting departments of physics, chemistry and astronomy

Country of Study: United States of America or Canada

No. of awards offered: 200

Application Procedure: Applicants must complete an application form. Guidelines and an application request forms are available from the website

Closing Date: 1 May

Funding: Private

Contributor: Foundation endowment

No. of awards given last year: 45

No. of applicants last year: 200

Additional Information: Research proposals that transcend the ordinary and promise significant discoveries are sought after

Research Council of Norway

Stensberggata 26, PO Box 2700, St Hanshaugen, Oslo, N 0131, Norway

Tel: (47) 2 203 7000

Fax: (47) 2 203 7001

Email: info@forskningsradet.no

Website: www.forskningsradet.no

The Research Council of Norway is a strategic body for Norwegian research and a central advisory body to the government on issues concerning general research policy as well as the development of science and technology. The Council bears overall responsibility for national research strategy and manages nearly one third of the public sector research funding. One of the principal tasks of the Research Council is to promote co-operation and co-ordination among Norwegian academic institutions. Other important objectives include raising the general level of knowledge in society and encouraging innovation in industry and the public sector. The Research Council identifies important fields of research, allocates funds and evaluates research and development.

Research Council of Norway Senior Scientist Visiting Fellowship

Subjects: Agriculture, forestry, veterinary medicine, and related fields

Purpose: To enable Norwegian research institutions to receive foreign scientists to participate in research groups,

discuss research arrangements and give lectures within their special fields

Eligibility: Open to well established and internationally recognised scientists who are at a professional or equivalent level

Level of Study: Professional development

Type: Fellowship

Value: Norwegian krone 25,000 per month for the first two months, Norwegian krone 10,000 for each succeeding month. Travelling expenses may also be defrayed

Length of Study: 1–12 months

Frequency: Annual

Study Establishment: A Norwegian research institution

Country of Study: Norway

Application Procedure: Applications must be filed by Norwegian institutions, so individual scientists should contact the Norwegian research institution or university department of their choice

Closing Date: Varies, please contact the Research Council for details

Funding: Government

Additional Information: The Research Council of Norway also administers the following: Research Programmes of the European Union (EU), Bilateral Scholarship Agreements, and the Nordic Scheme for the Baltic Countries and North West Russia

Roberta Sykes Indigenous Education Foundation

100 Botany Road, Alexandria, NSW 2015, Australia

Tel: (44) 2 9310 8400

Contact: The Roberta Sykes Indigenous Education Foundation

The group began by publishing an Aboriginal community newspaper, Koori Bina, which later became AIM (Aboriginal and Islander Message). BWA taught students of the Aboriginal and Islander Dance Theatre the skills to publish a small community newspaper; literacy, reporting, creative writing, editing, lay-out and administration, which eventually lead to the students taking over its publication. Over time, BWA broadened its work and funded a number of small enterprises that were established by Aboriginal women.

Roberta Sykes Bursary

Purpose: The Roberta Sykes Indigenous Education Foundation provides partial funding for Indigenous Australians to

undertake short, executive education courses at leading overseas academic institutions

Eligibility: For eligibility and application details, please visit www.robortasykesfoundation.com/roberta-sykes-bursary.html

Type: Bursary

Value: The value of the Bursary is up to \$20,000

Country of Study: Australia

Application Procedure: Before applying for this scholarship, if any clarifications are required, contact the foundation using the link www.robortasykesfoundation.com/contact.html

Closing Date: 6 June; 25 July; 28 November

For further information contact:

Tel: (44) 2 9310 8400

Roberta Sykes Scholarship

Purpose: The Roberta Sykes Scholarship provides partial funding to Aboriginal and/or Torres Strait Islander postgraduate students who wish to undertake studies at recognised overseas universities

Eligibility: For eligibility details, please visit www.robortasykesfoundation.com/roberta-sykes-scholarships.html. Usually have an undergraduate degree with a strong academic record; Be accepted into a postgraduate coursework or research degree at a recognised overseas university; Be of Aboriginal and/or Torres Strait Islander descent, identify as Aboriginal and/or Torres Strait Islander and be accepted as such by the community in which they live or have lived; Be able to demonstrate that alongside a Roberta Sykes Scholarship, they will have sufficient funds to support themselves during the course of their postgraduate degree (such as through another scholarship, private sponsorship or personal funds); Be able to demonstrate that their studies will be of benefit to their community upon their return to Australia

Type: Scholarship

Value: The value of the Scholarship is up to \$30,000 per year

Country of Study: Australia

The Annual Aurora Indigenous Scholars International Study Tour

Subjects: The Roberta Sykes Indigenous Education Foundation works closely with The Aurora Education Foundation to administer the Roberta Sykes scholarship, fellowship and bursary programs

Purpose: The Study Tour not only offers invaluable opportunities for students to gain insight into the realities of undertaking postgraduate study at these leading institutions but also provides the opportunity to travel with a group of like-minded students. The Study Tour involves meetings with key academics and administrators at each university, as well as current students in the areas of the participants' interest

Eligibility: 1. The Study Tour is open to applicants who have completed at least two years of their course of study and also to university graduates who wish to undertake further postgraduate study. 2. Each year, there is a competitive application process for the Study Tour. 3. The successful applicants will be chosen primarily on the basis of academic achievement

Level of Study: Postgraduate

Type: Scholarship

Value: Costs associated with travel, accommodation and meals are covered

Frequency: Annual

Country of Study: Australia

Application Procedure: To be considered, applicants must apply online via the Indigenous Scholarships Portal and upload the following documents: 1. A cover letter (including a personal statement about your background, career aspirations and reasons for wanting to go on the Tour). 2. A curriculum vitae. 3. An official transcript of all university results (including mid-year results, if available) Confirmation of Aboriginal or Torres Strait Islander descent through a signed written statement (including common seal if available) of an Aboriginal or Torres Strait Islander Heritage. 4. Association, Aboriginal or Torres Strait Islander Corporation or Land Council in the community where you live or have lived. 5. A high-resolution photo (headshot preferably) that could be used in promotional material, should you be selected to go on the Tour. 6. A scanned copy of your passport bio data page (if you have a valid passport)

Closing Date: 1 May

Funding: Private

Additional Information: For further information on the Study Tour, please please visit the Aurora Education Foundation website

The Royal Academy of Engineering's objectives may be summarized as the pursuit, encouragement and

maintenance of excellence in the whole field of engineering in order to promote the advancement of the science, art and the practice of engineering for the benefit of the public.

ExxonMobil Excellence in Teaching Awards

Subjects: Chemical, petroleum and mechanical engineering, geology

Purpose: To encourage able young engineering and Earth science lecturers to remain in the education sector in their early years

Eligibility: Open to well-qualified graduates, preferably with industrial experience and full-time lecturing posts at Institutes of Higher Education in the United Kingdom. Applicants should have been in their current posts for at least 1 year. The post must include the teaching of chemical, petroleum or mechanical engineering to undergraduates through courses that are accredited for registration with professional bodies for qualifications such as chartered engineer. For applicants whose career path has been graduation at the age of 22, followed by academic or industrial posts, the age limit is generally 32 years (at the closing date). Older candidates who have taken time out, e.g. for industrial experience, parenthood or voluntary service, will also be considered. Applicants should preferably be chartered engineers, or of equivalent professional status, or should be making progress towards this qualification

Level of Study: Postdoctorate

Type: Fellowship

Value: A range of benefits in addition to the £10,000 prize

Length of Study: 12 months

Frequency: Annual

Study Establishment: The applicant's current university in the United Kingdom

Country of Study: United Kingdom

Application Procedure: Applicants must complete an application form

Closing Date: 31 October

Funding: Commercial

Contributor: Exxon Mobile

Additional Information: A brochure is available on request. Enquiries about Exxon mobile university contacts should be sent via email and please see the website for further details

For further information contact:

Email: bowbrick@raeng.co.uk

Royal Academy Engineering Professional Development

Subjects: Engineering

Purpose: To ensure that the skills and knowledge of employees reflect the very latest in technological advances

Eligibility: Open to United Kingdom citizens with a degree or HND/HNC in engineering or a closely allied subject. OND/ONC or City and Guilds Full Technological Certificate or NVQ level III qualifications are acceptable provided the individual has substantial industrial experience

Level of Study: Professional development

Type: Grant

Value: £10,000 and £5,000 and prospective applicants should indicate for which level of award they are applying

Length of Study: 1 year

Frequency: Annual

Country of Study: United Kingdom

Application Procedure: For further information please contact the scheme manager Ian Bowbrick at the Academy

Closing Date: 24 October

Additional Information: Please see the website for further details

For further information contact:

Email: ian.bowbrick@raeng.org.uk

Royal Academy Sir Angus Paton Bursary

Subjects: Engineering for development and water and environmental management

Purpose: To study water and environmental management

Eligibility: The bursary supports a suitably qualified engineer study a full-time Masters' degree course specifically related to water resources engineering or some other environmental technology

Level of Study: Postgraduate

Type: Bursary

Value: UK £8,000

Length of Study: 1 year

Frequency: Annual

Country of Study: United Kingdom

Application Procedure: For further information please contact the scheme manager Ian Bowbrick at the Academy

Closing Date: Offered all year round (check with website)

Funding: Private

Contributor: Sir Angus Paton

The Royal Society is the independent scientific academy of the United Kingdom dedicated to promoting excellence in science. It plays an influential role in national and international science policy and supports developments in science engineering and technology in a wide range of ways.

Global Challenges Research Fund Challenge-led Grants (GCRF)

Purpose: Generate excellent and novel research on global challenges directly and primarily relevant to developing countries that cuts across multiple thematic areas covered by the Sustainable Development Goals (SDGs). Strengthen research capacity in developing countries through collaboration, sharing of knowledge and skills, and exchange of staff between research groups in the United Kingdom and their partners in developing countries

Eligibility: 1. Your proposed research must address two or more GCRF thematic areas. The proposal must ultimately benefit the economic development and welfare of developing countries (i.e. be compliant with the ODA guidelines). 2. Your proposal must fall within the remit of the United Kingdom academies and must be interdisciplinary. The consortia must consist of one United Kingdom research group and two research groups from developing countries

Level of Study: Graduate

Type: Grants, work-study (not just grants)

Country of Study: Any country

Application Procedure: Application should be submitted through the Royal Society's grants and awards management system (Flexi-Grant®). and weblink is grants.royalsociety.org/. Shortlisted proposals will be subject to high quality independent peer review, and once complete these proposals will then be discussed at a Panel meeting

Closing Date: 11 September

Funding: Private

The Royal Society of Chemistry is the learned society for chemistry and the professional body for chemists in the United Kingdom with 46,000 members worldwide. The Society is a major publisher of chemical information, supports the teaching of chemistry at all levels, organizes hundreds of chemical meetings a year and is a leader in communicating science to the public. It is now the United Kingdom National Adhering Organization (NAO) to the International Union of Pure and Applied Chemistry (IUPAC).

Royal Society of Chemistry Journals Grants for International Authors

Subjects: Chemistry

Purpose: To allow international authors to visit other countries in order to collaborate in research, exchange research ideas and results, and to give or receive special expertise and training

Eligibility: Open to anyone with a recent publication in any of the Society's journals. Those from the United Kingdom or Republic of Ireland are excluded

Level of Study: Professional development

Type: Grant

Value: Up to £2,500 cover travel and subsistence (but not research related costs) and are available

Length of Study: Normally 1–3 months

Country of Study: Any country

No. of awards offered: 107

Application Procedure: Candidates must apply for application forms, together with full details, from the International Affairs Officer

Closing Date: 1 January, 1 April, 1 July or 1 October

No. of awards given last year: 83

No. of applicants last year: 107

The Royal Society of Edinburgh is Scotland's national academy of science and letters. It offers research and enterprise awards to candidates based in Scotland.

Royal Society of Edinburgh Personal Research Fellowships

Subjects: All science and social science subjects
Purpose: To provide outstanding researchers, who have the potential to become leaders in their chosen field, with the opportunity to build an independent research career
Eligibility: Open to persons of all nationalities who have 2 to 6 years postdoctoral experience. They must also show that they have the capacity for innovative research and the potential to become leaders in their field
Level of Study: Doctorate
Value: Salary and research support costs for 5 years
Length of Study: 5 years
Frequency: Annual
Study Establishment: Any Higher Education Institution in Scotland
Country of Study: Scotland
No. of awards offered: 53
Application Procedure: Applicants must complete an application form, available on the RSE website. Applicants should negotiate directly with their host institution
Closing Date: 16 February
Contributor: Scottish Government, BP and Caledonian Research Fund
No. of awards given last year: 3
No. of applicants last year: 53
Additional Information: Successful applicants will be allocated a funding provider (BP, CRF or Scottish Government) according to their subject area. BP funding is available every 2nd year and is for candidates working in areas of interest to BP. CRF funding is for candidates in the biomedical sciences. Fellows are expected to devote their full time to research and are not allowed to hold any other paid appointments without the express permission of Council.
