## AACR - American Association for Cancer Research

615 Chestnut St., 17th Floor, Philadelphia, PA 19106-4404, United States of America.

**Tel:** (1) 215 440 9300

**Email:** [aacr@aacr.org](mailto:aacr@aacr.org)

**Website:** [www.aacr.org/](http://www.aacr.org/)

From the simple beginning of a few scientists gathering to share information to the multifaceted organization that exists today, the growth of the AACR reflects the increasing complexity of our understanding of over 200 diseases we now know as cancer.

## AACR NextGen Grants for Transformative Cancer Research

**Purpose:** The AACR NextGen Grants for Transformative Cancer Research represent a funding initiative to stimulate highly innovative research from young investigators. This grant mechanism is intended to promote and support creative, paradigm-shifting cancer research that may not be funded through conventional channels. It is expected that these grants will catalyze significant scientific discoveries and help talented young investigators gain scientific independence. The grants provide US\$450,000 over three years for expenses related to the research project, which may include salary and benefits of the grant recipient, postdoctoral or clinical research fellows, graduate students (including tuition costs), and research assistants, research/laboratory supplies, equipment, travel applicable to the research project, publication charges for manuscripts that pertain directly to the funded project, other research expenses, and indirect costs.

**Eligibility:** Applicants must have a doctoral degree (PhD, MD, MD/PhD, or equivalent) in a related field and not currently be a candidate for a further doctoral degree. At the start of the grant term on Nov. 1, applicants must: hold a tenure-eligible appointment (or equivalent, if institution does not follow a tenure system) at the rank of assistant professor (appointments such as research assistant professor, adjunct assistant professor, assistant professor research track, visiting professor, or instructor are not eligible; applicants that have progressed to associate professor appointments are also not eligible.); have held a tenure-eligible assistant professor appointment for less than three years (appointed on or after Nov. 1, 2017); and work at an academic, medical, or research institution anywhere in the world. If eligibility is based on a future position, the position must be confirmed at the time of submission, and CANNOT be contingent upon receiving this grant. If the future position is at a different institution than the applicant's current institution, the applicant must contact AACR's Scientific Review and Grants Administration Department (AACR's SRGA) at [grants@aacr.org](mailto:grants@aacr.org) before submitting their Letter of Intent for information on additional verification materials/signatures that may be required. There are no citizenship or geographic requirements. However, by submitting a Letter of Intent for this grant, an applicant applying from an institution located in a country in which they are not a citizen or a permanent resident assures that their visa status will provide sufficient time to complete the project and grant term at the institution from which they applied.

**Level of Study:** Masters

**Type:** Fellowship

**Value:** US\$450,000

**Length of Study:** 3 years

**Frequency:** Annual

**Country of Study:** US

**Application Procedure:** The AACR requires applicants to complete an online Letter of Intent submission by 1 p.m. U.S. Eastern Time, Tuesday, May 5, using the proposalCENTRAL website at [proposalcentral.com](http://proposalcentral.com) Program

Guidelines and Competitive Letter of Intent Instructions are available for download.

### **AACR-Bayer Stimulating Therapeutic Advances through Research Training (START) Grants**

**Purpose:** Dramatic advances made in recent years towards precision medicine initiatives, biomarker and novel target identification, and high-throughput examination of genomic data, have resulted in a trove of valuable data that can inform the development of new therapeutics to combat cancer. However, to effectively harness this wealth of information and advance the discovery and development of new therapies for cancer patients, enhanced collaboration between academia and industry will be needed. The AACR-Bayer Stimulating Therapeutic Advances through Research Training (START) Grants represent an exciting and novel initiative to encourage and support such collaboration. These grants, which will provide support to postdoctoral or clinical research fellows, combines research experiences in both an academic and industry setting, following a research timeline that will be of greatest benefit to the proposed work. The training provided through this grants program will be invaluable to young investigators, by allowing fellows to attain a comprehensive research experience that will make them highly desirable to potential employers in either academic research or the pharmaceutical industry. Likewise, academic research centers and industry will benefit from the introduction of such dual-trained individuals into the field. Each fellowship provides a three-year grant of US\$225,000 to support the salary and benefits of the fellow while working on a mentored cancer research project. Proposals focused on clinical research are highly encouraged. Applicants must plan to spend one year on site at a Bayer facility. One of a number of Bayer's locations are possible, at the discretion of Bayer. The year at Bayer will be determined on a case-by-case basis, and will be at a time agreed upon by the fellow, the academic supervisor, the Bayer mentor, and Bayer.

**Eligibility:** Applicants must have a doctoral degree (PhD, MD, MD/PhD, or equivalent) in a related field and not currently be a candidate for a further doctoral degree. At the start of the grant term on Nov. 1, applicants must: hold a tenure-eligible appointment (or equivalent, if institution does not follow a tenure system) at the rank of assistant professor (appointments such as research assistant professor, adjunct assistant professor, assistant professor research track, visiting professor, or instructor are not eligible; applicants that have progressed to associate professor appointments are also not eligible.); have held a tenure-eligible assistant professor appointment for less than three years (appointed on or after

Nov. 1, 2017); and work at an academic, medical, or research institution anywhere in the world. If eligibility is based on a future position, the position must be confirmed at the time of submission, and CANNOT be contingent upon receiving this grant. If the future position is at a different institution than the applicant's current institution, the applicant must contact AACR's Scientific Review and Grants Administration Department (AACR's SRGA) at [grants@aacr.org](mailto:grants@aacr.org) before submitting their Letter of Intent for information on additional verification materials/signatures that may be required. ## Abell Foundation

Suite 2300, 111 S. Calvert Street, Baltimore, MD 21202-6174, United States of America.

**Tel:** (1) 410 547 1300

**Website:** [www.abell.org/](http://www.abell.org/)

The Abell Foundation, formerly known as The A.S. Abell Company Foundation, was established on December 31, 1953 by Harry C. Black, philanthropist and then chairman of the board of the A.S. Abell Company, the former publisher of The Baltimore Sun. Upon the sale of the A.S. Abell Company in 1986, the resources of the Foundation increased significantly. The Abell Foundation is the largest private foundation serving only Maryland. The Foundation has acted as an agent of change by supporting innovative, results-oriented efforts to ameliorate the systemic social, economic, and environmental challenges encountered by those living in concentrated poverty. With a unique focus on Baltimore City, Abell provides grant funding to enterprising non-profits as well as research to better inform civic conversation. It also invests in new businesses and technologies that have the potential to benefit society and build Baltimore's workforce. Since its establishment, the Abell Foundation has contributed more than US\$339,000,000 to the community.

### Abell Foundation - For Small Grant Requests

**Purpose:** The Abell Foundation is dedicated to the enhancement of the quality of life in Maryland, with a focus on Baltimore City. The Foundation is committed to improving the lives of underserved populations by supporting innovative, results-oriented efforts to solve systemic social, economic, and environmental problems.

## Alex's Lemonade Stand Foundation

### POST Program Grants

**Subjects:** Pediatric Oncology

**Purpose:** The Pediatric Oncology Student Training (POST) Program is designed for undergraduate, graduate and medical students who have an interest in pediatric oncology research and would like to experience the field first hand. Students train with a pediatric oncology research mentor. Students may join a research project underway in a mentor's lab or begin an original investigation with the mentor.

**Eligibility:** Mentors must be ALSF grantees (past or present, including those who have previously mentored POST students), Advisory Board, or Review Board members. Mentor/mentee pair must be identified prior to submitting an application. Mentor must be active in the field of pediatric oncology research. Mentor must submit a commitment letter, plan training activities, and provide guidance during the Program period. Student must currently be enrolled in an undergraduate, graduate, or medical degree-granting program. Student does not need to be enrolled in classes over the summer. Student must be able to dedicate at least eight full consecutive weeks to the program, typically between May 1 and August 31 (dates may vary depending on the student's scheduled break). ALSF will consider only one application from any one mentor.

**Type:** Grant

**Value:** Max US\$5,000

**Country of Study:** Any country

**Application Procedure:** See website for further details.

**Closing Date:** 10 February

**Additional Information:** [www.alexslimonade.org/grants/program-areas/early-career-research-programs](http://www.alexslimonade.org/grants/program-areas/early-career-research-programs)

### RUNX1 Early Career Investigator Grants

**Subjects:** Leukemia

**Purpose:** The RUNX1 Early Career Investigator grant is a 3-year award designed to fund research in strategies leading

to the development of therapies to prevent the transition from pre-leukemia to leukemia for patients with RUNX1-FPD. Collaboration and data sharing are a priority for this research program. The RUNX1 Research Program and ALSF host an annual scientific meeting that brings together grant recipients and other scientists. Grant recipients are expected to present their progress as part of the annual review.

**Eligibility:** Applicants must have an M.D., PhD or dual M.D., PhD (D.O., MBBS or equivalent) and be within 5 years of their first faculty appointment as an Assistant Professor or equivalent. Associate and Full Professors are ineligible. If still at the Instructor level, the applicant must have a commitment from the Department Chief at the time of grant submission for an Assistant Professor position within one year of receiving the award. A minimum of 75% of the applicant's time during the award period must be allocated as protected time for all research activities. This percentage of time includes both activities on this grant and the applicant's other research responsibilities. Applicants may have research grants from other funding sources during the award period, but there must be clear documentation of mechanisms to avoid scientific and budgetary overlap. Applicants must have research experience working in and a deep understanding of normal or malignant hematopoiesis and/or immunology. Applicant institutions may be based in the U.S. or outside of the U.S. Applicants need not be United States citizens. Funds must be granted to non-profit institutions or organizations. One resubmission of a previously unfunded application is allowed. Use the Resubmission section of the application to respond to the prior RRP/ALSF critique of the proposal. The response will be scored in the review process in addition to the criteria used for new applications. Resubmissions compete with new applicants for funding.

**Type:** Grant

**Value:** up to US\$60,000 per year for three years.

**Length of Study:** Three years

**Country of Study:** Any country

**Application Procedure:** See website for further details.

**Closing Date:** 16 December

### Alzheimer's Association

225 N. Michigan Ave. Floor 17 Chicago, IL 60601, United States of America.

### Alzheimer's Association Clinician Scientist Fellowship (AACSF) Program

**Subjects:** Clinical fields that include patient contact (e.g., neurology, psychiatry, geriatrics, psychology)

**Purpose:** The Alzheimer's Association recognizes the need to support the training of clinician scientists in Alzheimer's and all other dementia. For the purpose of this program, a clinician scientist is defined as an individual already trained, licensed and practicing in a clinical field that includes patient contact (e.g., neurology, psychiatry, geriatrics, psychology) or patient-related diagnostic studies (e.g., neuropathology and radiology). Applicants who hold an M.D. or D.O. degree or applicants with a PhD who have licensure for clinical practice are eligible.

**Eligibility:** Applicant must be a clinician who is interested in an academic career in research and has completed residency for an M.D. or D.O. (i.e. any degree that allows the applicant to achieve licensure to practice medicine) or a post-doctoral fellowship (PhD) in a clinical practice field or both within the past five years. Individuals applying to the program will be accepted from individuals with full-time positions at their respective institution who are within 10 years of receiving their M.D., D.O. or PhD (or equivalent), including postdoctoral fellows through Assistant Professors. Positions higher than Assistant Professor will not be considered. Individuals who are early in their clinician scientist careers will be given priority. Proposals are strongly encouraged from individuals training in specialties of behavioral neurology and neuropathology, geriatrics with focus on dementia/cognitive disorders, geriatric psychiatry with focus on dementia/cognitive disorders or neuropsychology with focus on dementia/cognitive disorders. The applicant must be at a recognized academic institution. The Alzheimer's Association reserves the right to request additional information to confirm that the institution meets not-for-profit requirements of the Association.

**Type:** Fellowship

**Value:** Each AACSF award is limited to US\$175,000. A total of US\$155,000 will be awarded for costs related to the proposed research for up to three years (minimum two years) for direct and indirect costs. Requests in any given year may not exceed US\$60,000 (direct and indirect costs). Indirect costs are capped at 10% (rent for laboratory/office space is expected to be covered by indirect costs paid to the institution). This is inclusive of indirect costs for the implementing institution as well as any to subcontracts. The Principal Investigator must commit up to an average of two protected days per week (40%) effort toward their research efforts during each funding year. The remaining funds, US\$10,000 to the applicant and US\$10,000 to the primary mentor, will be awarded upon successful completion of the three years (minimum two years). These additional funds are to be applied to sustaining ongoing research in the Alzheimer's field and will be awarded through the applicant's and mentor's institutions. Successful completion of the program includes "but is not limited to" reaching all of the demonstrable benchmarks listed. A total of US\$5,000 over a three-year period (two-year minimum) may be requested for travel purposes and is not to exceed US\$3,000

in one given year. A portion must be allocated to support registration and travel to the annual Alzheimer's Association International Conference® (AAIC®), as AAIC attendance is a condition of the award. If you request the full US\$5,000 for two years of travel and are requesting a three-year award, you will not be able to request travel funds for one of those years.

**Length of Study:** Two to three years

**Country of Study:** Any country

**Application Procedure:** See website for further details.

**Closing Date:** 19 March

**Additional Information:** Applications from currently funded investigators (including the mentor) who are delinquent in submitting required reports and other deliverables on active grants are ineligible. Investigators (or mentors) that have previous Alzheimer's Association awards closed as 'Incomplete' are not eligible to apply. This policy will be strictly adhered to with no exceptions. ### **Alzheimer's Association Clinician Scientist Fellowship to Promote Diversity (AACSF-D)**

**Subjects:** Alzheimer's and all dementia research

**Purpose:** The Alzheimer's Association Clinician Scientist Fellowship to Promote Diversity is up to three years (minimum two years) and is intended to support exceptional clinician scientists who are currently underrepresented at academic institutions in clinical research training in Alzheimer's and all dementias. Applicants who hold an M.D. or D.O. degree or applicants with a PhD who have licensure for clinical practice are eligible.

**Eligibility:** Applicant must be a clinician who is interested in an academic career in research and has completed residency for an M.D. or D.O. (i.e. any degree that allows the applicant to achieve licensure to practice medicine) or a post-doctoral fellowship (PhD) in a clinical practice field or both within the past five years. Individuals applying to the program will be accepted from individuals with full-time positions at their respective institution who are within 10 years of receiving their M.D., D.O. or PhD (or equivalent), including postdoctoral fellows through Assistant Professors. Positions higher than Assistant Professor will not be considered. Individuals who are early in their clinician scientist careers will be given priority. Proposals are strongly encouraged from individuals training in specialties of behavioral neurology and neuropathology, geriatrics with focus on dementia/cognitive disorders, geriatric psychiatry with focus on dementia/cognitive disorders or neuropsychology with focus on dementia/cognitive disorders. Specific to the AACSF-D program, eligible applicants are faculty members who have been determined to be underrepresented faculty in biomedical and behavioral research on a national, international or institutional basis.

The Alzheimer's Association will require documentation to support the faculty member's underrepresented status at their institution. Applicants from the U.S. submitting to the Alzheimer's Association will be subject to the definitions as stated by the National Institutes of Health, including: Blacks and African Americans; Hispanics and Latinos; American Indians and Alaska Natives; Asian Americans, Native Hawaiians and other Pacific Islanders; Socioeconomically disadvantaged populations; Underserved rural populations; Persons with disabilities; Sexual and gender minorities. Applicants must submit a Letter of Assurance letter printed on the hiring institution letterhead with the current date, signed by an authorized institutional official (i.e. Grants and Contracts officer) that states you have been determined by your institution to be underrepresented in the above areas at the time of Letter of Intent (LOI) for verification. The Alzheimer's Association reserves the right to require additional documentation to help confirm the applicant's eligibility. Non-U.S. applicants, in addition to a Letter of Assurance, must provide official documentation from their institutional materials, such as, website, manual or other legal documentation that indicates their eligibility for this program. The applicant must be at a recognized academic institution. The Alzheimer's Association reserves the right to request additional information to confirm that the institution meets not-for-profit requirements of the Association.

**Type:** Fellowship

**Value:** Each Alzheimer's Association Clinician Scientist Fellowship to Promote Diversity is limited to US\$175,000. A total of US\$155,000 will be awarded for costs related to the proposed research for up to three years (minimum two years) for direct and indirect costs. Requests in any given year may not exceed US\$60,000 (direct and indirect costs). Indirect costs are capped at 10% (rent for laboratory/office space is expected to be covered by indirect costs paid to the institution). This is inclusive of indirect costs for the implementing institution as well as any to subcontracts. The Principal Investigator (PI) must commit up to an average of two protected days per week (40%) effort toward their research efforts during each funding year. The remaining funds, US\$10,000 to the applicant and US\$10,000 to the primary mentor, will be awarded upon successful completion of the three-year program (minimum two years). These additional funds are to be applied to sustaining ongoing research in the Alzheimer's field and will be awarded through the applicant's and mentor's institutions. Successful completion of the program includes, but is not limited to, reaching all of the demonstrable benchmarks listed. A total of US\$5,000 over a three-year period (minimum two years) may be requested for travel purposes and is not to exceed US\$3,000 in any given year. A portion must be allocated to support registration and travel to the annual Alzheimer's Association International Conference® (AAIC®), as AAIC attendance is a condition of the award.

**Length of Study:** Two to three years

**Country of Study:** Any country

**Application Procedure:** See website for further details.

**Closing Date:** 19 March

**Additional Information:** Applications from currently funded investigators (including the mentor) who are delinquent in submitting required reports and other deliverables on active grants are ineligible. Investigators (or mentors) that have previous Alzheimer's Association awards closed as 'Incomplete' are not eligible to apply. This policy will be strictly adhered to with no exceptions. ### **Alzheimer's Association Research Fellowship to Promote Diversity (AARF-D)**

**Subjects:** Alzheimer's and all dementia research

**Purpose:** The Alzheimer's Association Research Fellowship to Promote Diversity is up to three years (minimum two years) and is intended to support exceptional scientist from underrepresented groups working in Alzheimer's and all other dementia research, and who are engaged in their postgraduate work (i.e. postdoctoral fellows) and before they have their first independent faculty positions (i.e. Assistant Professor) and working in diverse areas of research including basic, translational, clinical, functional and social-behavioral research.

**Eligibility:** Individuals applying to the program will be accepted from postdoctoral fellows with full-time positions at their respective institution who have less than 10 years of research experience after receipt of their terminal degree. Individuals who have a position of an Assistant Professorship or above are not eligible. Specific to the AARF-D program, eligible applicants are faculty members who have been determined to be underrepresented faculty in biomedical and behavioral research on a national, international or institutional basis. The Alzheimer's Association will require documentation to support the faculty member's underrepresented status at their institution. Applicants from the U.S. submitting to the Alzheimer's Association will be subject to the definitions as stated by the National Institutes of Health. NIH-designated U.S health disparity populations include: Blacks and African Americans; Hispanics and Latinos; American Indians and Alaska Natives; Asian Americans; Native Hawaiians and other Pacific Islanders; Socioeconomically disadvantaged populations; Underserved rural populations; Persons with disabilities; Sexual and gender minorities. Applicants must submit a Letter of Assurance letter printed on the hiring institution letterhead with the current date, signed by an authorized institutional official (i.e. Grants and Contracts officer) that states you have been determined by your institution to be underrepresented in the above areas at the time of

Letter of Intent (LOI) for verification. The Alzheimer's Association reserves the right to require additional documentation to help confirm the applicant's eligibility. Non-U.S. applicants, in addition to the letter, must provide official documentation from their institutional materials, such as website, manual or other legal documentation that indicates their eligibility for this program.

**Type:** Fellowship

**Value:** Each AARF-D award is limited to US\$175,000. A total of US\$155,000 will be awarded for costs related to the proposed research for up to three years (minimum two years) for direct and indirect costs. Requests in any given year may not exceed US\$60,000 (direct and indirect costs). Indirect costs are capped at 10% (rent for laboratory/office space is expected to be covered by indirect costs paid to the institution). This is inclusive of indirect costs for the implementing institution as well as any to subcontracts. The Principal Investigator must commit to a 50% effort toward the proposed project each funding year. The remaining funds "US\$10,000 to the applicant and US\$10,000 to the primary mentor" will be awarded upon successful completion of the three years (minimum two years). These additional funds are to be applied to sustaining ongoing research in the neurodegenerative field and will be awarded through the applicant's and mentor's institutions. Successful completion of the program includes, but is not limited to, reaching all of the demonstrable benchmarks listed. A total of US\$5,000 over a three-year period (minimum two years) may be requested for travel purposes and is not to exceed US\$3,000 in any given year. A portion must be allocated to support registration and travel to the annual Alzheimer's Association International Conference® (AAIC®), as AAIC attendance is a condition of the award. If you request the full US\$5,000 for two years of travel and are requesting a three-year award, you will not be able to request travel funds for one of those years.

**Length of Study:** Two to three years

### **Alzheimer's Association Research Grant - New to the Field (AARG-NTF)**

**Subjects:** Alzheimer's and all dementia research

**Purpose:** The Alzheimer's Association Research Grant "New to the Field (AARG)" NTF aims to fund investigators who are

new to Alzheimer's or other dementias field of research. The purpose of this program is to provide independent investigators with unique expertise and apply their knowledge to Alzheimer's and all dementias.

**Eligibility:** Individuals who are new to the field of neuroscience or neurodegeneration (Alzheimer's, Parkinson's, Lewy body dementia, etc.) will be considered for this program and will need to contact the Association at [grantsapp@alz.org](mailto:grantsapp@alz.org) to receive an exception prior to submitting a Letter of Intent (LOI). Investigators who have published work and/or been funded in neurodegeneration will not be eligible for this program. Please note the following: If you submit an LOI without an approved exception, your LOI will be rejected. Investigators that have published and/or have been funded in neurodegeneration will not be eligible for this program. If the applicant's institution does not have an Assistant Professor position, the letter of employment should include sufficient information to allow the Alzheimer's Association staff to evaluate the eligibility of the applicant.

**Type:** Grant

**Value:** Each AARG-NTF total award is limited to US\$150,000 (direct and indirect costs) for up to three years (minimum two years). Requests may not exceed US\$60,000 in any given year (direct and indirect costs). Indirect costs are capped at 10% (rent for laboratory/office space is expected to be covered by indirect costs paid to the institution). This is inclusive of indirect costs for the implementing institution as well as any to subcontracts.

**Length of Study:** Two to three years

**Country of Study:** Any country

**Application Procedure:** See website for further details.

**Closing Date:** 19 March

**Additional Information:** Applicants must be Assistant Professors or above at their respective institution. For individuals who are at non-academic institutions, please contact the Alzheimer's Association at [grantsapp@alz.org](mailto:grantsapp@alz.org), to verify your eligibility. ### **Alzheimer's Association Research Grant (AARG)**

**Subjects:** Alzheimer's and all dementia research

**Purpose:** The Alzheimer's Association Research Grant aims to fund investigators who are less than 15 years past their doctoral or post-residency (M.D. or D.O.). The purpose of this program is to provide newly independent investigators with funding that will allow them to develop preliminary or pilot data, to test procedures and to develop hypotheses. The intent is to support early-career development that will lay the groundwork for future research grant applications to federal or other funding entities, like the National Institutes of Health, including future proposals to the Alzheimer's Association. The Alzheimer's Association recognizes the need to

increase the number of scientists from underrepresented groups in the research enterprise for Alzheimer's and other dementias. Young scientists from these groups are encouraged to apply.

**Eligibility:** Eligibility to apply for this grant competition is restricted to investigators who have less than 15 years of research experience after receipt of their terminal degree "doctorate or post-residency (M.D. or D.O.). The 15-year period applies to the date of submission of the grant application. Adjustments for career interruptions can be made. These can include, but are not limited to, family leave, military service and major illness or injury. It is the responsibility of the applicant to point out and document such interruptions within their application. Applicants must contact the Alzheimer's Association at [grantsapp@alz.org](mailto:grantsapp@alz.org) regarding any possible exception prior to submitting a Letter of Intent (LOI) due to the review process; no exceptions will be made after the LOI deadline has passed. Applications to the Alzheimer's Association Research Grant (AARG) program will be accepted from postdoctoral fellows and other junior faculty members (e.g., Instructor, Research Associate Scientist, Lecturer, etc.) who can provide a letter of employment verification indicating they will have a full-time faculty position of an Assistant Professor or above by the award date should the proposal be in funding range and funded. If applicable, the letter of employment must be uploaded with the application and dated within three months from application submission date, printed on the hiring institution letterhead, signed by an authorized institutional official (i.e., Grants and Contracts officer) and must indicate that the position will be activated by the grant award date. If the anticipated position is not activated by the award date for any reason, any offer of funding will be withdrawn. There will be no exceptions. In the event your application is funded, you will be required to provide an official letter on organizational letterhead, signed by an institutional signing official, stating you have a full-time faculty position of an Assistant Professor and above. If the applicant's institution does not have an Assistant Professor position, the letter of employment should include sufficient information to allow the Alzheimer's Association staff to evaluate the eligibility of the applicant.

**Type:** Grant

**Value:** Each AARG total award is limited to US\$150,000 (direct and indirect costs) for up to three years (minimum two years). Requests in any given year may not exceed US\$60,000 (direct and indirect costs). Indirect costs are capped at 10% (rent for laboratory/office space is expected to be covered by indirect costs paid to the institution). ## American Academy of Child and Adolescent Psychiatry

### AACAP Pilot Research Award for Attention Disorders

**Subjects:** Child and adolescent mental health

**Purpose:** To support young investigators at a critical stage, encouraging a future career in child and adolescent psychiatry research.

**Eligibility:** Candidates must be board eligible/certified in child and adolescent psychiatry, or enrolled in a child psychiatry residency or fellowship program. Candidates must have a faculty appointment in an accredited medical school or be in a fully accredited child and adolescent psychiatry clinical research or training program. At the time of application, candidates may not have more than two years of experience following graduation from residency/fellowship training. Candidates must not have any previous significant, individual research funding in the field of child and adolescent mental health. These include the following: NIMH/NIH funding (Small Grants, R-01) or similar foundation or industry research funding. Candidates who have received or are currently receiving "T32" funding support are eligible to apply. Candidates must either be AACAP members or have a membership application pending (not paid by the award) and agree to submit a poster presentation on his or her research for AACAP's 68th Annual Meeting in Atlanta, Georgia, October 25-30, 2021.

The American Association for Cancer Research (AACR) is a scientific society of over 17,000 laboratory and clinical cancer researchers. It was founded in 1907 to facilitate communication and dissemination of knowledge among scientists and others dedicated to the cancer problem, and to foster research in cancer and related biomedical sciences. It is also dedicated to encouraging the presentation and discussion of new and important observations in the field, fostering public education, science education and training, and advancing the understanding of cancer aetiology, prevention, diagnosis and treatment throughout the world.

### **American Association for Cancer Research Anna D. Barker Basic Cancer Research Fellowship**

**Purpose:** The AACR Anna D. Barker Basic Cancer Research Fellowship encourages and supports postdoctoral or clinical research fellows to establish a successful career path in cancer research. The research proposed for funding may be in any area of basic cancer research

**Eligibility:** Applicants must have a doctoral degree (including PhD, MD, DO, DC, ND, DDS, DVM, ScD, DNS, PharmD, or equivalent) in a related field and not currently be a candidate for a further doctoral degree. applicants must: 1. Hold a mentored research position with the title of postdoctoral fellow, clinical research fellow, or the equivalent. i. If eligibility is based on a future position, the position must be confirmed at the time of application and CANNOT be contingent upon receiving this grant. ii. If the future position is at a different institution than the applicant's current institution, the applicant must contact AACR's Scientific Review and Grants Administration Department (AACR's SRGA) at 28T [grants@aacr.org](mailto:grants@aacr.org) 28T before submitting their application for information on additional verification materials/signatures that may be required. 2. Have completed their most recent doctoral degree within the past three years (i.e., degree cannot have been conferred before 1 July; the formal date of receipt of doctoral degree is the date the degree was conferred, as indicated on their diploma and/or transcript). i. Applicants with a medical degree must have completed their most recent doctoral degree or medical residency - whichever date is later - within the past three years. 3. Work under the auspices of a mentor at an academic, medical, or research institution anywhere in the world (There are no citizenship or geographic requirements. ### **American Association for Cancer Research-AstraZeneca Stimulating Therapeutic Advancements through Research Training (START) Grants**

**Purpose:** Dramatic advances made in recent years towards precision medicine initiatives, biomarker and novel target identification, and high-throughput examination of genomic data, have resulted in a trove of valuable data that can inform the development of new therapeutics to combat cancer. However, to effectively harness this wealth of information and advance the discovery and development of new therapies for cancer patients, enhanced collaboration between academia and industry will be needed. The AACR-AstraZeneca Stimulating Therapeutic Advancements through Research Training (START) Grants represent an exciting new initiative to encourage and support such collaboration. This novel model, which will provide support to postdoctoral or clinical research fellows, combines research experiences in both an academic and industry setting, following a research timeline that will be of greatest benefit to the proposed work. The training provided through this grant program will be invaluable to young investigators, by allowing fellows to attain a comprehensive research experience that will make them highly desirable to potential employers in either academic research or the pharmaceutical industry. Likewise, academic research centers and industry will benefit from the introduction of such dual-trained individuals into the field

**Eligibility:** APPLICANT ELIGIBILITY CRITERIA Applicants must have a doctoral degree (including PhD, MD, DO, DC, ND, DDS, DVM, ScD, DNS, PharmD, or equivalent) in a related field and not currently be a candidate for a further doctoral degree. At the start of the grant term on 1 July,

applicants must:

1. Hold a full-time, mentored research position with the title of postdoctoral fellow, clinical research fellow, or the equivalent; this position must have been held for at least one, but not more than three, years.
  - i. If eligibility is based on a future position, the position must be confirmed at the time of application, and CANNOT be contingent upon receiving this grant.
  - ii. If the future position is at a different institution than the applicant's current institution, the applicant must contact AACR's Scientific Review and Grants Administration Department (AACR's SRGA) at [grants@aacr.org](mailto:grants@aacr.org) before submitting their application for information on additional verification materials/signatures that may be required.

Collaborators can include local schools or school districts, businesses and other community-based organizations. 2-year grants are restricted to projects focused on girls' achievement in mathematics, science or technology. Projects must involve community and school collaboration. The fund supports planning and coalition-building activities during the 1st year and implementation and evaluation the following year

**Type:** Grant

**Value:** US\$2,000–7,000 (1-year grant); US\$5,000–10,000 (2-year grant)

**Length of Study:** 1 or 2 years

**Frequency:** Annual

**Application Procedure:** Applicants must write for an application form, which is also available from the website

**Closing Date:** 15 January

**Funding:** Private

**Additional Information:** Please note that materials sent to the Washington, DC office will be disqualified and will not be reviewed. Two types of grant are available: 1-year grants are for short-term projects. Topic areas are unrestricted but should have a clearly defined educational activity; 2-year grants are for longer term programmes and are restricted to projects focused on K-12 girls achievement in mathematics, science and/or technology. Funds support planning activities and coalition-building during the 1st year and implementation and evaluation the following year [www.aauw.org/what-we-do/educational-funding-and-awards/community-action-grants/](http://www.aauw.org/what-we-do/educational-funding-and-awards/community-action-grants/)

Hold an academic degree (earned in the U.S. or abroad) equivalent to a U.S. bachelor's degree completed by 15 November 2019. Intend to devote herself full-time to the proposed academic plan during the fellowship year. Intend to return to her home country to pursue a professional career. Be proficient in English. Unless the applicant can verify that her native language is English (written statement required), that she received her secondary diploma or undergraduate degree from an English-speaking institution (transcript required), or that she will have completed one semester of full-time study in her discipline at an English-speaking college or university between November 2017 and November 2019 (transcript required), she must upload a recent ETS TOEFL\* (Test of English as a Foreign Language) score (no older than November 2017). Institutional TOEFL scores and other English proficiency test scores (such as IELTS) will not be accepted. Minimum score acceptable: 550 for Paper-Based Test (TOEFL PBT); 79 for Internet-Based Test (TOEFL iBT); 60 for Revised TOEFL Paper-Delivered Test.. Master's/first professional degree and doctoral applicants must have applied by 15 November 2019, to an accredited institution of study for the period of the fellowship year and must indicate the name of the institution in the International Fellowship application.

**Level of Study:** Doctorate, Postdoctorate, Postgraduate, Professional development, MBA

**Type:** Fellowship

**Value:** US\$18,000 (Master's/First Professional Degree Fellowship); US\$20,000 (Doctoral Fellowship); US\$30,000 (Postdoctoral Fellowship)

**Length of Study:** 1 year

**Frequency:** Annual

**Study Establishment:** Any accredited institution

**Country of Study:** United States of America

**Application Procedure:** Applicants must complete an application for each year applying. Applications must be obtained from the customer service centre or the AAUW website between 1 August and 15 December. Three letters of recommendation, transcripts and a minimum score of 550 on the Test of English as a Foreign Language (213 computer-based) are also required. **Contact:** Diane Sinclair, Director of Education

The American Australian Association (AAA), founded in 1948, is the largest non-profit organization in the United States devoted to relations between the United States, Australia and New Zealand, with operations throughout the tri-state and the New England regions. Its goal is to encourage stronger ties across the Pacific, particularly in the private sector.

### AAA Graduate Education Scholarships

**Purpose:** The AAA Graduate Education Scholarships support American and Australian individuals undertaking or planning to undertake full-time Graduate level study (Masters, PhD or Postdoctoral Research) at an accredited institution in the country of the other, for a minimum of one year. The scholarships outlined below will provide support of up to US\$40,000 to those in the specialty fields of Science, Technology, Engineering, Mathematics, Health, Medicine and Sustainability. Scholarship funds may be used toward travel, living, tuition and other associated educational costs.

**Eligibility:** 1. All AUS to USA applicants must be an Australian citizen or permanent resident (dual citizens or USA permanent residents are not eligible); 2. Applicants must have a formal letter of offer into the accredited institution, program or course, in the country of the other, at the time of application; 3. Applicants must be conducting research or studying within the fields supported; 4. Applicants must be studying at Graduate-level or above (Masters, PhD or Postdoctoral Research); 5. Applicants may already have commenced their studies in the USA, but must have at least one-year of full-time study left at the time of application.

**Level of Study:** Masters, PhD or Postdoctoral

**Value:** US\$40,000

**Length of Study:** 1 year

**Application Procedure:** 1. High-resolution headshot & in-action study field shot (min 1MB, 300 DPI); 2. Video presentation (max 1 minute – introducing yourself & your planned research/study abroad); 3. Passport biographic page from Australia or USA; 4. Offer or acceptance letter from your host university or research supervisor, confirming your placement; 5. Academic transcripts for Graduate and/or Undergraduate study; 6. Resume (please reduce to 1-page); 7. Detailed budget outlining expenses and income throughout the year of supported study – please download and use the Graduate Education Scholarships Budget Template as a guide. This is available to download in the application portal; 8. Three referees to list in the Letter of Recommendation section. Please note: after listing, referees will be

automatically contacted to complete a recommendation within the online submission form. This is not viewable to the applicant.

### Ipatieff Prize

**Purpose:** To recognize outstanding chemical experimental work in the field of catalysis

**Eligibility:** Open to candidates who should not have passed his or her 40th birthday on 3 April of the year in which the award is presented, and must have done outstanding chemical experimental work in the field of catalysis or high pressure. Special weight will be given to independence of thought and originality. The award may be made for investigations carried out in any country and without consideration of nationality

**Level of Study:** Postgraduate

**Type:** Prize

**Value:** The award will consist of the income from a trust fund and a certificate. The financial value of the prize may vary, but it is expected that it will be approximately US\$5,000 and that it will be awarded every three years. Travel expenses related to conferment of the award will be reimbursed

**Frequency:** Every 3 years

The American Council on Education (ACE), founded in 1918, is the nation's umbrella higher education association. ACE is dedicated to the belief that equal educational opportunity and a strong higher education system are essential cornerstones of a democratic society. ACE is a forum for the discussion of major issues related to higher education and its potential to contribute to the quality of American life. ACE maintains both a domestic and an international agenda and seeks to advance the interests and goals of higher and adult education in a changing environment by providing leadership and advocacy on important issues representing the views of the higher and adult education community to policy makers, and offering services to its members.

**American Council on Education Fellows Program**

**Purpose:** Since 1965, nearly 2,000 vice presidents, deans, department chairs, faculty, and other emerging leaders have participated in the ACE Fellows Program, a customized learning experience that enables participants to immerse themselves in the study and practice of leadership and experience the culture, policies, and decision-making processes of another institution.

**Eligibility:** Open to senior members of college faculty or mid-level staff with a minimum of five years teaching or administrative experience who show evidence of potential for senior level administration. English is the language of instruction

**Level of Study:** Professional development

**Type:** Fellowship

**Value:** The nominating institution supports the salaries and benefits. The host institution supports the seminar and travel costs of the ACE Fellows and the Council provides support for programmatic costs

**Length of Study:** 1 academic year

**Frequency:** Annual

**Study Establishment:** A host college or university

**Country of Study:** Any country

**Application Procedure:** Applicants must be nominated by the president or vice president of a college or university. Applications must be submitted with a nomination form, along with four confidential letters of reference

**Additional Information:** ACE Fellows work with a mentor, normally a president or other senior officer, at policy and practical levels. The fellowship experience is supplemented with national and regional seminars and meetings. Contact could be established only through webform [www.acenet.edu/Programs-Services/Pages/Professional-Learning/ACE-Fellows-Program.aspx](http://www.acenet.edu/Programs-Services/Pages/Professional-Learning/ACE-Fellows-Program.aspx)

### Pathway to Stop Diabetes Diabetes Initiator Award

**Purpose:** Pathway seeks to bring new investigators and new perspectives to diabetes research. Supporting scientists with different backgrounds and experience is critical to achieving that objective. Pathway accepts nominations for exceptional investigators with medical and scientific backgrounds who propose innovative basic, clinical, translational, behavioral, epidemiological and health services research relevant to any type of diabetes, diabetes-related disease state or complication. Pathway solicits nominations for candidates in all disciplines as applied to diabetes

**Eligibility:** Eligible applicants must currently be in research training positions (post-doctoral fellow, research fellowship) and have no more than seven years of research training following terminal doctoral degree. Applicants cannot concurrently hold an NIH K99/R00 grant.

**Level of Study:** Postdoctoral

**Type:** Award

**Value:** Up to US\$100,000/year in Phase 1, Up to US\$325,000/year in Phase 2

**Length of Study:** Up to 7 years

**Frequency:** Annual

**Country of Study:** United States

**Closing Date:** 14 May

### American Federation for Aging Research (AFAR)

55 West 39th Street, 16th Floor, New York, NY 10018, United States of America.

**Tel:** (1) 212 703 9977

**Email:** [grants@afar.org](mailto:grants@afar.org)

**Website:** [www.afar.org](http://www.afar.org)  
**Contact:** Director, Grant Programs

The American Federation for Aging Research (AFAR) is a leading non-profit organization supporting biomedical aging research. Since its founding in 1981, AFAR has provided approximately US\$124 million to more than 2,600 new investigators and students conducting cutting-edge biomedical research on the aging process and age-related diseases. The important work AFAR supports leads to a better understanding of the aging process and to improvements in the health of all Americans as they age.

### American Federation for Aging Research Research Grants for Junior Faculty

**Purpose:** To help junior faculty to carry out research that will serve as the basis for longer term research efforts  
**Eligibility:** Open to junior faculty with an MD or PhD degree  
**Level of Study:** Postdoctorate, Research  
**Type:** Research grant  
**Value:** US\$100,000  
**Length of Study:** 1–2 years  
**Frequency:** Annual  
**Country of Study:** United States of America  
**Application Procedure:** Applicants must complete and return the application by the annual deadline. These are available from the website  
**Closing Date:** 15 December  
**Funding:** Private, Foundation  
**Contributor:** AFAR  
**Additional Information:** Exceptions to the ten year rule may be requested for unusual circumstances by emailing an NIH-style biosketch to AFAR at [grants@afar.org](mailto:grants@afar.org) research.weill.cornell.edu/funding/open-submission-grants/afar-research-grants-junior-faculty-american-federation-aging

### American Federation for Aging Research/Pfizer Research Grants in Metabolic Control and Late Life Diseases

**Purpose:** To address specific areas of research that focus on the aging process and age related diseases  
**Eligibility:** Applicants must be United States citizens or permanent residents  
**Level of Study:** Research  
**Type:** Grant

**Value:** US\$60,000  
**Length of Study:** 1–2 years  
**Frequency:** Annual  
**Country of Study:** United States of America  
**Application Procedure:** Applicants must complete and return the application by the annual deadline. These are available from the website  
**Closing Date:** 14 December  
**Funding:** Private  
**Contributor:** Pfizer Pharmaceuticals, Inc  
**Additional Information:** Projects may involve basic, clinical or epidemiological research

### Diana Jacobs Kalman/AFAR Scholarships for Research in the Biology of Aging

**Purpose:** An opportunity to conduct a three-to-six-month research project focused on biomedical research in aging.  
**Eligibility:** Applicants must be MD, DO, PhD, or combined degree students in good standing at a not-for-profit institution in the United States, such as universities, medical schools, hospitals, or non-government agencies. If accepted, applicants will be asked to submit a Proof of Enrollment form confirming their enrollment at a U.S. institution. Applicants who also receive NIH, NSF or DOD stipend support are eligible to receive the AFAR Scholarship, but may not hold another award or participate in another scholarship program concurrently with the Kalman/AFAR Scholarship. The research project must be carried out under the supervision of a faculty mentor  
**Level of Study:** Three to six month research project  
**Type:** Scholarships  
**Value:** Each scholarship is US\$5,000  
**Length of Study:** 90 days  
**Frequency:** Annual  
**Application Procedure:** The full application in pdf form with instructions on all required parts is available [afar.org/docs/Kalman\\_AJAR\\_Scholarship\\_WuFoo.pdf](http://afar.org/docs/Kalman_AJAR_Scholarship_WuFoo.pdf)

## American Hearing Research Foundation - AHRF

275 N. York Street, Suite 201, Elmhurst, IL 60126, United States of America.

**Tel:** (1) 630 617 5079

**Email:** [info@american-hearing.org](mailto:info@american-hearing.org)

**Website:** [www.american-hearing.org/](http://www.american-hearing.org/)

At the American Hearing Research Foundation (AHRF), we recognize the boundless potential of new ideas. That's why we focus our resources on providing seed grants for novel research to better understand and overcome hearing and balance disorders of the inner ear, funding five to ten research projects each year, with an average grant of US\$20,000. We also work hard to educate the public about these life-altering conditions, which are inextricably linked to people's quality of life and their ability to meet the challenges of day-to-day living. Tracing our roots back to the first-ever successful operation to restore hearing, AHRF has been making new discoveries possible for more than 60 years. Founded in 1956 by Dr. George E. Shaumbagh, Jr., our mission is to better understand why we lose hearing and balance functions and to learn all that we can about how to preserve and restore them.

### AHRF Regular Grants

**Purpose:** AHRF typically funds six to ten regular research grants that investigate various aspects of hearing and balance disorders related to the inner ear. Grants are for US\$20,000 to US\$50,000 for one year of research. Grants are paid in one lump sum in January in the year after the application deadline. Priority is given to investigators early in their careers who need seed funds to generate results and data that can be used to support applications for larger grants (i.e., NIH grants) in the future. Grant funds may only be used for direct costs, including salaries of technical and supporting staff, equipment related to the research, and supplies. Note that the cost for salaries plus fringe benefits cannot be more than 80% of

the direct costs. Funding may not be used for the salary of the principal investigator, travel, conference attendance, educational costs, or indirect costs. Depending on funds available, grant amounts occasionally may be adjusted at the discretion of AHRF. Our goal is to fund as many promising, novel projects as feasible

**Eligibility:** Applicants must hold an MD, PhD, AuD, or equivalent degree(s) and be associated with a university or hospital in the United States.

**Level of Study:** Masters

**Type:** Grants

**Value:** US\$20,000 - US\$50,000

**Frequency:** Annual

**Country of Study:** US

**Application Procedure:** Please write your application using this checklist. Please follow these guidelines carefully: Title Page (first page of proposal), Title of research project, Principal investigator name(s), Credentials, Institution name, USPS mailing address, Telephone number, Email address, Financial officer contact information, Description, Brief 2-page summary of the project, Include performance site and key personnel of project. Table of Contents, Include all first-level headings with page numbers. Detailed Budget Provide a one-year budget that includes salary for support staff (students, post-doctorate fellows, etc.), equipment and supplies. Salaries plus fringe benefits may not be more than 80% of your total direct costs. Do not include salaries for principal investigator(s), travel or conference attendance expenses, educational costs, or indirect costs (overhead). AHRF does not fund these costs. The budget should include the total amount requested. Biographical Sketch, Include contact information (USPS mailing address, telephone, email, etc.) with each investigator's biographical sketch page. List all publications (maximum of two pages), current funding, pending funding, and requested funding. Indicate what you will do if you receive overlapping funding. Letters of support from colleagues are welcome, but not required. Include any letters of support within your proposal document whenever possible. Main Body, Include specific aims of the project (body no longer than 10-15 pages at 12-point type, standard margins); background and significance; methods; and what type of subjects (human or animal), if applicable. Progress Report (For Renewal Projects Only), Indicate if you are requesting that your proposal be renewed for additional funding, which is considered on a case-by-case basis. Saving your proposal as a PDF: Save your proposal as a PDF, naming it as follows: "Yourlastname\_Yourfirstname" If the PDF file is 5 MG or smaller, you can submit it via the online portal. If your PDF is larger than 5 MB, please email the PDF and application form data to [Info@American-Hearing.org](mailto:Info@American-Hearing.org).

## American Parkinson Disease Association

### Dr. George C. Cotzias Memorial Fellowship

**Subjects:** Parkinson's Disease

**Purpose:** George C. Cotzias, MD was a pathfinder in the pharmacologic exploration of brain functions and in the treatment of Parkinson's disease with levodopa. His work stimulated much of the current interest and research on neurological movement disorders. The American Parkinson Disease Association has established the Cotzias fellowship, in honor of his memory, to stimulate neurologists to follow his leadership. The goal of the Cotzias fellowship is to assist promising young neurologists in establishing careers in research, teaching and clinical services relevant to the problems, causes, prevention, diagnosis and treatment of Parkinson's disease and related neurological movement disorders.

**Eligibility:** The applicant must be a physician and a U.S. citizen or a permanent resident of the U.S. who is completing, or has completed, training in a clinical discipline concerned with disorders of the nervous system (i.e. medical neurology, child neurology, neurosurgery, neuropathology). The applicant should be an instructor or assistant professor and demonstrate a clear commitment to the goals described above. There should also be evidence that the sponsoring institution will provide the environment and support needed for career development. The applicant should be no more than 6 years beyond completion of their clinical training at the time of submission and must be sponsored by a non-profit institution in the U.S. or its territories.

**Level of Study:** Junior Faculty

**Type:** Fellowship

**Value:** US\$80,000 per year

**Length of Study:** Three years

**Country of Study:** Any country

**Application Procedure:** Complete the application form. Upload as one PDF document. Description of the research proposal should not exceed six (6) pages and should consist of background, specific aims, research design, and a statement of significance for Parkinson disease research. The applicant's NIH biosketch as well as two letters of reference, one from the applicants's direct sponsor and one from a professional person with personal knowledge of the applicant's academic past and ability, should be included. The applicant should list all current and pending support, including sponsoring agency, amount and dates for awards. The application should indicate how other sponsored research complements or supplements the present proposal. The six page limit only applies to the length of the proposal, not the entire application. After the submit button is clicked, applicants can print the complete application

**Closing Date:** 14 March

**Additional Information:** Funding is not to be used for: Indirect costs; Institutional overhead; Salary for the principal investigator higher than US\$75,000; Travel expenses higher than US\$3,000 per year; Publication costs higher than US\$1,000; Equipment costs higher than US\$10,000 per year. ## Research Grants

**Subjects:** Parkinson's disease

**Purpose:** Research grants are intended and available for junior investigators to pursue research in Parkinson's disease.

**Eligibility:** All research scientists in the field of Parkinson's research can apply, but the selection committee will more favorably consider researchers who are new to the field of Parkinson's disease.

**Level of Study:** Junior Faculty

**Type:** Grant

**Value:** Up to US\$75,000

**Country of Study:** Any country

**Application Procedure:** Complete application form. Upload as one PDF document. Description of the research proposal should not exceed three (3) pages and should consist of background, specific aims, research design, and a statement of significance for Parkinson disease research. The applicant's NIH biosketch should be included. The applicant should list all current and pending support, including sponsoring agency, amount and dates for awards. The application should indicate how other sponsored research complements or supplements the present proposal. The three page limit only applies to the length of the proposal, not the entire application. After the submit button is clicked, applicants can print the complete application.

**Closing Date:** 14 March

**Additional Information:** Funding is not to be used for: Indirect costs; Institutional overhead; Salary for the principal investigator higher than US\$50,000; Travel expenses; Publication costs higher than US\$1,000; Equipment costs higher than US\$8,000. ## American Philosophical Society

### Phillips Fund for Native American Research

**Subjects:** Native American studies

**Purpose:** The Phillips Fund of the American Philosophical Society provides grants for research in Native American linguistics, ethnohistory, and the history of studies of Native Americans, in the continental United States and Canada. Grants are not made for projects in archaeology, ethnography, psycholinguistics, or for the preparation of pedagogical materials. The committee distinguishes ethnohistory from contemporary ethnography as the study of cultures and culture change through time. The grants are intended for such costs as travel, tapes, films, and consultants' fees but not for the purchase of books or permanent equipment or to pay income tax on the award.

**Eligibility:** The committee prefers to support the work of younger scholars who have received the doctorate. Applications are also accepted from graduate students for research on master's theses or doctoral dissertations. It is assumed that appropriate contacts and arrangements have or will be made with communities for ethical access and community guidance. The committee sometimes approves two awards to the same person within a five-year period.

**Level of Study:** Junior Faculty

**Value:** Approximately US\$3000; will not exceed US\$3,500

**Length of Study:** One year

**Country of Study:** United States of America

### **Career Development Award**

**Subjects:** The pathophysiology or management of diseases of the colon, rectum, anus or small bowel.

**Purpose:** To provide young surgeons with the support necessary for the initiation and development of an academic career in colorectal surgery. The CDA focuses on career development and mentorship of the individual rather than solely on the research proposal. The award is intended for the academic investigator demonstrating significant creativity in research relevant to the pathophysiology or management of diseases of the colon, rectum, anus or small bowel.

**Eligibility:** Must be: Within 5 years of first full-time faculty appointment in the United States or Canadian government, public or private not-for-profit medical institution. United States or Canadian citizen having completed an approved colorectal surgery training program; if foreign national, then must have valid working visa at time of application for colorectal department/institution where work is proposed. ASCRS members only. Grant can support up to 10% of the of the NIH Cap salary (US\$187,000 as of Jan. 2018). Applications should also include a letter of support from the department of surgery chair confirming at least 25% non-clinical time will be committed to the applicant. Applicant must not currently have or have previously received a career development award from another external funding source. If the applicant receives the Career Development Award from the Research Foundation of the ASCRS and is subsequently awarded another career development award from another external funding source with overlapping funding period, the applicant must return the residual funds to the Research Foundation of the ASCRS, or decline the funding from another source. The exception is a career development award from the NIH K-series award or funding from the applicants own institution.

**Type:** Award

**Value:** US\$75,000 per year

**Length of Study:** Two years

**Frequency:** Annual

**Country of Study:** United States of America or Canada

**Website:** [www.amscan.org](http://www.amscan.org)

**Contact:** Director of Fellowships and Grants

The ASF is a publicity supported, non-profit organization that promotes international understanding through educational and cultural exchange between the United States and the Nordic countries.

### Awards for American Universities and Colleges to host Norwegian lecturers

**Purpose:** The American-Scandinavian Foundation (ASF) invites United States colleges and universities to apply for funding to host a visiting lecturer from Norway. The awards

are for appointments of one semester, and should fall within an academic year

**Eligibility:** Terms of Award; 1. US\$20,000 teaching/research stipend. 2. 5,000 travel stipend for lecture appearances outside home institution. Lectureships should be in the area of contemporary studies with an emphasis on one of five areas: 1. Public Policy. 2. Conflict Resolution. 3. Environmental Studies. 4. Multiculturalism. 5. Healthcare. Conditions of Award; 1. The lecturer must be a Norwegian citizen, and a scholar or expert in a field appropriate to the host department or program. 2. The ASF encourages consideration of the practitioner as well as the academic as a lectureship candidate. Responsibilities of the Host Institution; 1. The institution is responsible for selecting the lecturer it wishes to host. The ASF cannot assist in establishing contacts. 2. All pre-appointment communication with the lecturer, and arrangements for teaching, public presentations and housing during the lectureship appointment are the responsibility of the host institution. The host institution would be expected to provide support complementing the US\$20,000 stipend. Additional support may be in the form of: 1. Subsidized faculty housing. 2. International Travel and insurance expenses. 3. Office and computer use. 4. Additional stipend support. Responsibilities of the Lecturer; 1. The selected lecturer is expected to teach one course (undergraduate or graduate level) and perform modest public activities (lectures, etc.) for which s/he will receive US\$20,000. 2. The selected lecturer is expected to accept invitations to visit other academic institutions or conferences (including the NorTANA conference, the Swedish Teachers' conference, and the SASS conference) for which s/he will have US\$5,000 available in travel funds

**Level of Study:** Unrestricted

**Type:** Lectureship/Prize

## Grants for Public Projects

**Purpose:** Through its public project grants, ASF funds a wide variety of programs that bring American and Scandinavian culture, art and thought to public audiences. The American-Scandinavian Foundation promotes the cultures of the Nordic

countries in the United States and American culture in the Nordic countries by encouraging programs that will enhance public appreciation of culture, art, and thought

**Eligibility:** Must be a non-profit organization and the project must be open to the public. ASF's funding priority has traditionally been to underwrite public programming and defined events. Awards are given to non-profit organizations only. Proof of an organization's non-profit status (as a 501(c)(3) in the United States or equivalent in Scandinavia) is required. ASF does NOT support: 1. Capital expenses. 2. Institutional overhead and other administrative fees. 3. Underwriting book, periodical or website publication. 4. Production of commercial CDs or cassettes. 5. Conference participation or conference registration for individuals. However, general conference expenses such as costs for special invitees/speakers can be supported. 6. Participation in studio residencies other than those with which ASF already has an ongoing affiliation. 7. Retroactive funding. Projects cannot begin before the decision announcement date. 8. The maximum award amount is US\$5,000; however, average grants range between US\$1,000 to US\$2,000. ASF will only accept one application per organization per competition cycle and will grant only one award per organization per fiscal year in any one grant category

**Website:** [www.asgbi.org.uk](http://www.asgbi.org.uk)

The founding objectives of the Association of Surgeons of Great Britain and Ireland, in 1920, were the advancement of the science and art of surgery and the promotion of friendship among surgeons. As other surgical specialities developed, the

Association came to represent general surgery, encompassing breast, colorectal, endocrine, laparoscopic, transplant, upper gastrointestinal and vascular surgery.

### Moynihan Travelling Fellowship

**Purpose:** To enable specialist registrars or consultants to broaden their education, and to present and discuss their contribution to British or Irish surgery overseas

**Eligibility:** Open to either specialist registrars approaching the end of their higher surgical training or consultants in general surgery within 5 years of appointment after the closing date for applications. Candidates must be nationals of and residents of the United Kingdom or the Republic of Ireland, but need not be Fellows or affiliate Fellows of the Association. They may be engaged in general surgery or a sub-speciality thereof

**Level of Study:** Postdoctorate

**Type:** Fellowship

**Value:** £5,000

**Frequency:** Annual

**Country of Study:** Any country

**Application Procedure:** Applicants must submit 12 copies of an application, which must include a full curriculum vitae giving details of past and present appointments and publications, a detailed account of the proposed programme of travel, costs involved and the object to be achieved. Applications must be addressed to the Honorary Secretary at the Association of Surgeons. For further details contact Bhavnita Borkhatria at [bhavnita@asgbi.org.uk](mailto:bhavnita@asgbi.org.uk)

### **The Capstone Editing Early Career Academic Research Grant for Women**

**Purpose:** In offering this grant, Capstone Editing acknowledges the greater difficulties faced by female academics in developing and continuing their careers and seeks to ameliorate this situation with practical, financial support

**Eligibility:** You must be a woman. You must be employed as an academic staff member in a position that involves research at an Australian or New Zealand university (i.e. staff in teaching-only positions are not eligible). You may be employed on a continuing or fixed-term basis. (Casual staff are not eligible.) - You may be employed part time or full time. You must be an early career academic. This is defined as someone who has graduated from their PhD within the past six years or who has begun continuing or fixed-term employment in an academic position for the first time within the past two years. - The research project must be one intended to lead to publication. This is defined as a research project for which one of the expected outcomes is publication of a peer-reviewed journal article, book chapter or book. It is recognised that academic research is incredibly varied and that some research will result clearly and quickly in a publication while other research might not lead to a publication for some time. Part of the purpose of this grant is to assist women to overcome barriers to their career progression, and publication is crucial to this. That is why one of the goals of the research project should be publication. You can specify in your application the type of publication you are aiming for and how it is related to your research project. - Previous recipients of this grant may not apply again. - Previous unsuccessful applicants may reapply every year if they wish. - You cannot apply if you are an employee or contractor of Capstone Editing (or a family member of an employee or contractor).
