Retraction Note: Clinico-histopathologic and outcome features of cutaneous infundibular keratinizing acanthoma: a case report and literature review

Abbas Tavasoly¹, Hossein Gholami¹, Amir Rostami², Ali Anissian³, Seyed Rashid Touni⁴, Pooyan Khaleghian⁵, Aram Mokarizadeh⁶, Javad Javanbakht^{1,8*} and Alireza Nasoori⁷

Retraction

The Editor-in-Chief and Publisher have retracted this article [1] because the scientific integrity of the content cannot be guaranteed. An investigation by the Publisher found it to be one of a group of articles we have identified as showing evidence suggestive of attempts to subvert the peer review and publication system to inappropriately obtain or allocate authorship. This article showed evidence of plagiarism (most notably from the articles cited [2–5]) and authorship manipulation.

Author details

¹Department of Pathology, Faculty of Veterinary Medicine, Tehran University, Tehran, Iran. ²Department of Clinical Science, Faculty of Veterinary Medicine, Tehran University, Tehran, Iran. ³Department of Veterinary, College of Agriculture, Abhar Branch, Islamic Azad University, Abhar, Iran. ⁴Faculty of Veterinary Medicine, Urmia University, Urmia, Iran. ⁵Graduated of Faculty of Veterinary Medicine, Garmsar Branch, Islamic Azad University, Garmsar, Iran. ⁶Department of Immunology, Faculty of Medicine, Kurdistan University of Medical Sciences, Sanandaj, Iran. ⁷Graduate of Veterinary Medicine, Faculty of Veterinary Medicine, Karaj Branch, Islamic Azad University, Rajaei shahr, Moazen Boulevard, Karaj, Alborz, Iran. ⁸Department of Pathobiology, Faculty of Veterinary Medicine, Tehran University, Tehran, Iran.
