DOI: 10.1208/s12249-011-9625-y

On page 605 under the “Materials” header, the authors inadvertently noted the glass syringe size as 0.6 mm instead of 6.0 mm: “A Luer Lock glass syringe (BD Hypak, USA), 6.0 mm inner diameter, was filled with 1 mL tested formulation.”

Throughout the paper, megapascal units were inadvertently depicted as “mPa” instead of “MPa” during production. All instances of “mPa” should instead be “MPa.”
