Due to an error in the publication process the race model formula was displayed incorrectly as:

$$arrayP(RT_{Race Model} < t) = P(RT_A < t) + P(RT_V < t) \\ -P(RT_A < t) \times P(RT_V < t)$$

The correct formula is:

$$P(RT_{Race Model} < t) = P(RT_A < t) + P(RT_V < t) \\ -P(RT_A < t) \times P(RT_V < t)$$
