There is an incorrect sentence in page 1739 of this paper. The sentence of “The BGO scintillator, cylindrical with a diameter of 156 mm and a length of 65 mm, is a well type, which allows for the HPGe detector to be combined vertically with it.” should be corrected to “The BGO scintillator, cylindrical with a diameter of 130 mm and a length of 156 mm, is a well type, which allows for the HPGe detector to be combined vertically with it.”
