

## Erratum

Shpak, M. and K. Atteson (2002). A survey of unequal crossover systems and their mathematical properties. *Bull. Math. Biol.* **64**, 703–746, doi:10.1006/bulm.2001.0299.

A number of typesetting errors appear in equations (2.4) and (2.5) of the above paper. The exponents  $p^{\frac{j-1}{2}}$  in the second terms of equations (2.4b) and (2.5b) should read  $p^{\frac{j-i}{2}}$ , which is the term consistent with both equations (2.3) and (2.6).

Also, in the sentence following equations (2.6a, b), ‘ $j-1$ ’ should also read ‘ $j-i$ ’, and equations (2.6a, b) refer to the odd and even cases of  $j-i$ , respectively, contra the statement on page 712.

We apologize for any confusion or misunderstanding these errors may have caused, and assume all responsibility for our oversights in the proofs.
