Retraction Note to:

**Chapter “X-ray observations of PSR B0335+54 and its pulsar wind nebula” in: S. Zane, R. Turolla and D. Page (eds), *Isolated Neutron Stars: From the Surface to the Interior*, Springer
https://doi.org/10.1007/978-1-4020-5998-8_39**

The authors have retracted this chapter [1]. This work had been unintentionally submitted and published in full length as part of a conference proceedings [2]. However, the authors had already published the content in another journal [3] and have now retracted [4] the article in the conference proceedings [2]. This chapter is therefore also redundant. All authors agree with this retraction.
