Correction to: A Distributed Topic Model for Large-Scale Streaming Text

Yicong Li , Dawei Feng, Menglong Lu, and Dongsheng Li

Correction to:

Chapter “A Distributed Topic Model for Large-Scale Streaming Text” in: C. Douligeris et al. (Eds.): *Knowledge Science, Engineering and Management*, LNAI 11776, https://doi.org/10.1007/978-3-030-29563-9_4

The book was inadvertently published with an uncorrected version. The following corrections should have been carried out before publication:

1. Page 42: Sentence “By computing the natural gradient, corpus-level parameters are updated according to Eq. (Error! Reference source not found)–Eq. (17).” Correctly it should read “By computing the natural gradient, corpus-level parameters are updated according to Eqs. (17)–(19).”
2. Page 48: Reference [18] was inserted in the list of references but not cited in the text. It should be added in the text. The wrong sentence was on page 44 reading: “PubMed [17] is with regard to medicine papers containing 21,148,298 documents, and a vocabulary size of 196,425.” Correctly it should read: “PubMed [18] is with regard to medicine papers containing 21,148,298 documents, and a vocabulary size of 196,425.”
3. Page 48: The references [19, 20] were inserted in the list but not cited in the text and should have been deleted. References [21, 22] in the reference list and the corresponding citations of them in the text have been adjusted.
