Correction to: Intelligent Temperature and Vacuum Pressure Control System for a Thermionic Energy Converter

Bartosz Kania , Dariusz Kuś , Piotr Warda ,
and Jarosław Sikora

Correction to:
Chapter “Intelligent Temperature and Vacuum Pressure Control System for a Thermionic Energy Converter” in:
A. Bartoszewicz et al. (Eds.): *Advanced, Contemporary Control*, AISC 1196, https://doi.org/10.1007/978-3-030-50936-1_22

In the original version of the book, the abstract of Chapter 22 was published with an incorrect information, “The results of the cathode temperature tests in the range from 1050 K to 1207 K show that at any time the pressure value in a TEC vacuum chamber is kept within the specified range,” which has now been corrected to “The results of the cathode temperature tests in the range from 340 K to 1273 K show that at any time the pressure value in a TEC vacuum chamber is kept within the specified range.” The book and chapter have been updated with the changes.

The updated version of this chapter can be found at
https://doi.org/10.1007/978-3-030-50936-1_22
