Erratum to:

Urs Graf, *Applied Laplace Transforms and z-Transforms for Scientists and Engineers*,

<https://dx.doi.org/10.1007/978-3-0348-7846-3>

Unfortunately a flaw in manufacture of the CD which comes with the book has occurred: the case-sensitivity of the filenames was destroyed! All filenames on the CD are in upper case letters. For the Notebooks, PackageCommands, ReferenceGuide and the Complete Table of Contents this does not harm but the *Mathematica* Package LaplaceAndzTransforms cannot run in this way.

So if your book has a CD in it throw it away, it is useless!

You can obtain for free, as ZIP-files, and directly from the author, with the address

urs.e.graf@bluewin.ch

- the newest version of the Package LaplaceAndzTransforms
- the notebook of all Package Commands
- the notebook of the Reference Guide
- 7 notebooks mentioned in the Book.

Another possibility is to download from the Book-Website

www.springer.com/de/book/9783764324278

the above mentioned 10 ZIP-files.
