Erratum to: Analyzing Multivariate Cross-Sectional Poisson Count Using a Quasi-Likelihood Approach: The Case of Trivariate Poisson

Naushad Mamode Khan, Yuvraj Sunecher and Vandna Jowaheer

Erratum to:

G.A. Anastassiou and O. Duman (eds.), *Intelligent Mathematics II: Applied Mathematics and Approximation Theory*, Advances in Intelligent Systems and Computing 441, DOI [10.1007/978-3-319-30322-2_27](https://doi.org/10.1007/978-3-319-30322-2_27)

The book was inadvertently published without including a change in one of the equations in page number 410, the variables $h(y_1, y_2, y_3)$ should be written as $-h(y_1, y_2, y_3)$. The erratum book and the chapter have been updated.

The updated original online version for this chapter can be found at [10.1007/978-3-319-30322-2_27](https://doi.org/10.1007/978-3-319-30322-2_27)
