Chapter 13 Binary OxRAM/CBRAM Memories for Efficient Implementations of Embedded Neuromorphic Circuits

**Elisa Vianello, Thilo Werner, Giuseppe Piccolboni, Daniele Garbin,
Olivier Bichler, Gabriel Molas, Jean Michel Portal, Blaise Yvert,
Barbara De Salvo, and Luca Perniola**

DOI 10.1007/978-3-319-54313-0_14

The original version of this book was inadvertently published with an incorrect figure in chapter 13. The authors and the editor would like to remove Figure 13.12 (a) as, unfortunately, the recognition rate for the complex biological (CF2) data was portrayed lower than it should be.

The figure 13. 12(a) has been now erased and the text is slightly modified to accommodate this deletion, in the correct version.

The updated online version of the original chapter can be found under
http://dx.doi.org/10.1007/978-3-319-54313-0_13
