Erratum to:

Chapter “Energy Recovery from Immobilised Cells of *Scenedesmus obliquus* after Wastewater Treatment” in: G. Mannina (ed.), *Frontiers in Wastewater Treatment and Modelling*, Lecture Notes in Civil Engineering 4, https://doi.org/10.1007/978-3-319-58421-8_42

The original version of the book was inadvertently published with misspelt author name “M. Gomes San Juan” in Chapter ‘Energy Recovery from Immobilised Cells of *Scenedesmus obliquus* after Wastewater Treatment’ which has to be corrected to read as “M. Gomez San Juan”. The erratum chapter and the book have been updated with the change.

Erratum to:

Chapter “Study of the Competition Between Complete Nitrification by a Single Organism and Ammonia- and Nitrite-Oxidizing Bacteria” in: G. Mannina (ed.), *Frontiers in Wastewater Treatment and Modelling*, Lecture Notes in Civil Engineering 4, https://doi.org/10.1007/978-3-319-58421-8_45

In the original version of the book, the typographical error “Commamox” has been corrected to read as “Comammox” in Chap. 45, which is a belated correction.

The updated online version of these chapters can be found at
