Retraction Note to:

Chapter “A Mathematical Model for Predicting Turbulence Variation in Air-Particle Two Phase Flows” in:

M. Zhao and J. Sha (Eds.):

Communications and Information Processing, CCIS,

DOI: [10.1007/978-3-642-31968-6_50](https://doi.org/10.1007/978-3-642-31968-6_50)

The paper starting on page 419 of this volume has been retracted because it is almost identical to the paper starting on page 134 of CCIS 202. Two of the three authors are the same.

The updated online version for this chapter can be found at [10.1007/978-3-642-31968-6_50](https://doi.org/10.1007/978-3-642-31968-6_50)
