Correction to: Marrying Single Molecules to Single Cells: Protocols for the Study of the Bacterial Proto-ring Components Essential for Division

A. Sánchez-Gorostiaga, A. I. Rico, P. Natale, M. Krupka, and M. Vicente

Correction to:

Chapter “Marrying Single Molecules to Single Cells: Protocols for the Study of the Bacterial Proto-ring Components Essential for Division”

in: T. J. McGenity et al. (eds.), *Hydrocarbon and Lipid Microbiology Protocols*, Springer Protocols Handbooks, https://doi.org/10.1007/8623_2015_79

In a previous version of the chapter, on page 104, line 1, ‘I-buffer’ should have been described as containing sucrose and not glucose. This has been now corrected in print and online versions to read as:

I-buffer: 100 mM KCl, 100 mM sucrose, 50 mM HEPES (pH 7.5), 0.1 mM GDP and 1 mM EDTA

The updated online version of this chapter can be found at
https://doi.org/10.1007/8623_2015_79
