× *Pucohnia* BROMELIACEAE

N. Schütz and F. Krapp

× ***Pucohnia*** G. H. Anderson *ex* D. A. Beadle (Prelim. List. Cult. Grex Bromeliad, 200, 1991).

— **Distr:** Cultivated only.

= *Puya* × *Deuterocohnia*. The only known cultivar is ‘George Anderson’ (= *P. laxa* (female) × *D. schreiteri*) (Anderson 1986: 103). The greenish-grey leaves are said to be longer than

those of either parent. Plants produce numerous offsets at their base.
