× *Enchotia* BROMELIACEAE

U. Eggli

× ***Enchotia*** Lemiaux (J. Bromeliad Soc. 61(3): 140, 2011). — **Distr:** Cultivated only.

= *Encholirium* × *Hechtia*. The only known hybrid ('Ruby') is a cross between *H. rosea* (male)

× *E. horridum* (female), and was obtained by a Florida-based nursery. The leaves of the hybrid are described as spineless, which is surprising in view of the leaf morphology of both parental species.
