× *Neobergia* BROMELIACEAE

U. Eggli

× **Neobergia** E. L. Smith (J. Bromeliad Soc. 33 (2): 73, 1983). — **Distr:** Cultivated only.

= *Neoregelia* × *Billbergia*. Smith (1983) lists the combination *B. nutans* × *N. spectabilis* (= × *Neobergia* ‘Peneri’), and later, *B. nutans* × *N. carolinae* was mentioned as × *Neobergia* ‘Noddy’. The plants are like a robust *B. nutans* but become red during flowering, and have a

shortened, ± erect (rather than arching or hanging) inflorescence.
