Retraction Note to: Physiological Role of Gamma Aminobutyric Acid (GABA) in Salt Stress Tolerance

Syed Uzma Jalil and Mohammad Israil Ansari

Retraction Note to:
Chapter “Physiological Role of Gamma Aminobutyric Acid (GABA) in Salt Stress Tolerance” in: Hasanuzzaman M. (eds), *Plant Ecophysiology and Adaptation under Climate Change: Mechanisms and Perspectives II*, https://doi.org/10.1007/978-981-15-2172-0_13

The authors have retracted this chapter (Jali and Ansari, 2020a) because it has been previously published in another book (Jali and Ansari, 2020b). [All authors agree with this retraction]

1. Jalil S.U., Ansari M.I. (2020a) Physiological Role of Gamma Aminobutyric Acid (GABA) in Salt Stress Tolerance. In: Hasanuzzaman M. (eds) *Plant Ecophysiology and Adaptation under Climate Change: Mechanisms and Perspectives II*. Springer, Singapore

2. Jalil S.U., Ansari M.I. (2020b) Physiological Role of Gamma-Aminobutyric Acid in Salt Stress Tolerance. In: Hasanuzzaman M., Tanveer M. (eds) *Salt and Drought Stress Tolerance in Plants. Signaling and Communication in Plants*. Springer, Cham

The retracted online version of this chapter can be found at
