Results of exploratory coring in Laguna Lake, Philippines

P. G. Sly¹, M. N. Charlton² & S. R. Joshi²¹Rawson Academy of Aquatic Science, Suite 404, 1 Nicholas Street, Ottawa, Ontario, K1N 7B7, Canada; ²National Water Research Institute, CCIW, P.O. Box 5050, Burlington, Ontario, L7R 4A6, Canada

Hydrobiologia 257: 153–164, 1993.

In the above article, Fig. 4 was unfortunately omitted from the final printed version. In its place on p. 159 appears a duplicated Fig. 3 above the correct legend for Fig. 4. We now present the correct Fig. 4 below.

The first equation and following text on p. 158 should read as follows:

$$C(x) = C(0) \cdot \exp(-\lambda x/S),$$

where λ is subsequently defined as the decay constant of ^{210}Pb (0.0311 μ)

We apologize for any inconvenience caused to the reader.

Fig. 4. Core #2, Unsupported ^{210}Pb vs. Sediment depth.
