CORRIGENDUM

"Predicting Ductile Crack Initiation Near Notch tip Under Mode I loading by the Damage Theory" by M. Zheng, G. Zhou and G. Zhao, *International Journal of Fracture* 73:1 (1995)R9-R13

The author has brought the following error to our attention. In Fig. 2b on page R13 the angle is identified as 2θ which is incorrect, it should be just θ . We hope this has not caused unnecessary confusion.

Figure 2. Notch opening displacement (V_g) for 3-point bend specimen.
