CORRIGENDUM

"The Effects of Constraint on Crack Tip Fields and Fracture Toughness" by Fashang Ma, *International Journal of Fracture* 69 (1995) 341-355

The author regrets that there is a typing error in the first expression of (16) in the paper referenced above. The correct expression should be:

$$\sigma_{ij}^J = \frac{E}{1+\nu} (D_{ij} + \frac{\nu}{1-2\nu} \delta_{ij} D_{kk}) - \frac{E}{1-2\nu} \frac{N_{ij} N_{kl} D_{kl}}{C}$$

The mistake occurred during preparation of the manuscript; the computation program for the work involved was in the correct form.

ANNOUNCEMENT

The US National Committee for Theoretical and Applied Mechanics (USNC/TAM) is seeking proposals from US authors and institutions to host IUTAM Symposia for 1998-99. Proposals to host a symposium should be made on a prepared form which may be obtained from the Secretary of the USNC/TAM. The completed application should be sent to the secretary not later than January 24, 1996. For further information and/or an application form kit contact

Professor Philip G. Hodge, Jr., Secretary, USNC/TAM
Department of Applied Mechanics, Mail Drop 4040
Stanford, CA 94305-4040; (415) 854-5575, Fax: (415) 723-1778
