ERRATA

Book Review: Alec P. Marantz, *On the Nature of Grammatical Relations* (STEVEN G. LAPOINTE), *NLLT* 3 (1985), 341–370.

1. The predicate-argument expressions on p.353, 7 lines from bottom, should read: [(x) 'give' (theme, goal)] and '(x)'; where both of the italicized x's should be underlined.

2. The last sentence of the starred footnote should simply read: "The author is presently on leave from the Department of English, Wayne State University."
