Appl Microbiol Biotechnol 35:312–316

On p. 314 the wrong graph was accidentally published as Fig. 3. The correct Fig. 3 is shown below.

Fig. 3. Extent of hydrolysis of racemic undecyl 2-sulphate by extracts of cells from different stages of batch culture. *Bars* indicate the % hydrolysis achieved after exhaustive incubation with cell extracts, the *shaded square symbol* indicates detectable but very low activity of the S1 enzyme; other symbols are as defined in Fig. 1
