Erratum

Naunyn-Schmiedeberg's Arch Pharmacol (1987) 335:438 – 444

Glomeruli and microvessels of the rabbit kidney contain both A₁- and A₂-adenosine receptors

M. Freissmuth, V. Hausleithner, E. Tüisl, C. Nanoff, and W. Schütz

Institute of Pharmacology, University of Vienna, Währingerstr. 13a, A-1090 Wien, Austria

Due to an unfortunate error, the term “glomerulartubular balance” (Introduction, 1st paragraph, line 15) is wrong and should have read “tubuloglomerular feedback.” Furthermore, correct reference to Osswald et al. (1978) on page 443, 1st paragraph, line 7 is: Osswald H, Schmitz HJ, Kemper R (1978) Renal action of adenosine: effect on renin secretion in the rat. Naunyn-Schmiedeberg's Arch Pharmacol 303:95 – 99
