Exact analysis of shear strain in wood

152

Although the final equations are correct there is a mix-up in the subscripts on the symbol α in the derivations which occur in Appendices B and D. The subscripts 1, 2 on the symbol α which occur in (B7) and where they occur in Appendix D, should be interchanged. It is necessary then to use (B6) to eliminate α_1 in order to derive (B7).
