Erratum

The *Neurospora uvs-2* gene encodes a protein which has homology to yeast RAD18, with unique zinc finger motifs

Hiroyuki Tomita, Takayuki Soshi, Hirokazu Inoue

Laboratory of Genetics, Department of Regulation Biology, Faculty of Science, Saitama University, Urawa 338, Japan
in: *Mol Gen Genet* (1993) 238:225–233

Due to an error in transmission, the accession number quoted for the *uvs-2* sequence reported in this paper is incorrect. The correct assignment is D11458.
