Chiral escape of bark beetles from predators responding to a bark beetle pheromone

Kenneth F. Raffa and Kier D. Klepzig

Oecologia (1989) 80:566–569

In the left column on page 567, two statements were omitted:

1. To the end of line 2 should be added: “Test three consisted of 25% (+), 75% (+), and blanks”.
2. Lines 21–22 should read:
“... (SEM=0.3) for control blanks. Too few predators were caught during this period for analysis. In test three, a disparity ...”.
