Pflügers Arch (1990) 416:238--246

Due to an unfortunate error Fig. 3 of the above article (page 240) was printed in reverse (wrong reading). The corrected version is printed below.

Fig. 3. Effect of raising $[Mg]_o$ on $[Mg]_i$. In this experiment $[Mg]_o$ was increased from 1 mmol/l to 10 and 20 mmol/l during the same impalement. Increasing external magnesium caused a reversible concomitant increase in $[Mg]_i$
