Optical Properties and Cell Parameters in the Glaucophane-Riebeckite Series

I. Y. Borg

Contr. Mineral. and Petrol. **15**, 67—92 (1967)

In Table 3: *Physical properties of glaucophane-riebeckites* (p. 76) the unit cell dimensions of Amphibole No. 1 should read:

a_0 (Å)	9.550 ± 0.001
b_0 (Å)	17.742 ± 0.003
c_0 (Å)	5.296 ± 0.001
β (Å)	103.70 ± 0.01
$a_0 \sin \beta$ (Å)	9.278
V (Å) ³	871.9
