

**Corrigendum Notice**

Mar. Biol. 43, 19-31 (1977). P.J. Harrison, H.L. Conway, R.W. Holmes and C.O. Davis: Marine Diatoms Grown in Chemostats under Silicate or Ammonium Limitation. III. Cellular Chemical Composition and Morphology of *Chaetoceros debilis*, *Skeletonema costatum*, and *Thalassiosira gravida*.

In the second column of Table 1 ("Limitation") on page 23 the fourth and fifth items should be interchanged for both *Skeletonema costatum* and *Thalassiosira gravida*, i.e., NH<sub>4</sub>-limited, followed by NH<sub>4</sub>-starved. The corresponding data for *Chaetoceros debilis* are correct as set, as are the data in all other columns.
