Erratum

The effect of pH on the transformation of syringic and vanillic acids by the laccases of *Rhizoctonia praticola* and *Trametes versicolor*

A. Leonowicz*, R. U. Edgehill, and J.-M. Bollag

Arch Microbiol (1984) 137:89–96

Due to an unfortunate error, Figs. 3 and 4 were transposed. They should have appeared as follows:

Fig. 3. HPLC chromatogram of a methylene chloride extract from an enzyme assay at pH 3.5 and 6.9 with syringic acid and laccase from *R. praticola* and *T. versicolor*

Fig. 4. HPLC chromatogram of a methylene chloride extract from an enzyme assay at pH 3.5 and 6.9 with vanillic acid and laccases from *R. praticola* and *T. versicolor*
