Erratum

Curr Genet (1987) 11:295–301

**A mitochondrial frameshift-suppressor (+) of the yeast
S. cerevisiae maps in the mitochondrial 15S rRNA locus**

Brigitte Weiss-Brummer, Hajime Sakai, and Fritz Kaudewitz

Institut für Genetik und Mikrobiologie, Lehrstuhl für Genetik, Universität München, Maria-Ward-Strasse 1a,
D-8000 München 19, Federal Republic of Germany

Due to an unfortunate oversight, an error appeared in the title of the paper. The title should read:

**A mitochondrial frameshift-suppressor (+1) of the yeast
S. cerevisiae maps in the mitochondrial 15S rRNA locus**

Moreover, lines 7–12 in the right-hand column of page 295 should read:

“On the other hand, evidence that spontaneous frameshifting leads to the synthesis of physiologically important products in prokaryotes, viruses, and eukaryotes comes from studies on the possible frameshift regulation of the bacterial release factor ...”
