Effects of β -Blockade and Atropinisation on Plasma Catecholamine Concentration during Exercise

C. T. M. Davies, J. R. Brotherhood, J. D. Few, and E. ZeidiFard

Europ. J. Appl. Physiol. **36**, 49–56 (1976)

Plasma catecholamine concentration levels should read $\mu\text{g/l}$ instead of $\mu\text{g}/100\text{ ml}$
