**A. Hiura and H. Ishizuka: Changes in features of degenerating primary sensory neurons with time after capsaicin treatment
Acta Neuropathol (1989) 78:35 – 46**

On page 45, the sentence that begins three lines from the bottom of the *left-hand* column should read: "Hiura and Sakamoto found that after destruction of the tips of neurites with capsaicin, growth cones are regenerated even when the preparations are not transferred in culture medium without capsaicin."
