RNA metabolism *in situ* at the 93D heat shock locus in polytene nuclei of *Drosophila melanogaster* after various treatments

S. C. Lakhotia & Abhay Sharma

Readers attention is drawn to the fact that the numbers and letters designating specific chromosome loci in figures 1-5 in this paper were printed in lower case (e.g. 93d) in error. All letters should have been in upper case (e.g. 93D). The Editor offers his apologies for this error.
