Erratum

Theory of Optical Ramsey Resonance in Three Separated Fields Produced by a Corner Reflector

N. Hata and K. Shimoda

Institute of Physical and Chemical Research, Wako-SHI, Saitama 351, Japan

Appl. Phys. **22**, 1–9 (1980)

On page 6, the second column, the 12th line should read $= 556$ m/s instead of $= 278$ m/s. Numerical values of the power P and the signal power ΔP should therefore be multiplied by 4, while the frequency difference $\omega - \omega_0$ and the gas pressure p should be multiplied by 2. Those values in Fig. 5–8 should likewise be corrected.
