Erratum

In the article by S. L. Paulauskas and S. B. Goodman Campbell, "Social perspective-taking and teacher ratings of peer interaction in hyperative boys" (*Journal of Abnormal Child Psychology*, Vol. 7, No. 4, December 1979, pp. 483-493), the matrix test of referential communication was mistakenly attributed to Chandler (1973). In fact, the authors of the test are Greenspan and Barenboim, as indicated in Johnson's *Tests and measurements in child development: Handbook II* (Jossey-Bass, 1976). A detailed description of the test is contained in a 1975 document distributed by ERIC (ED-125-784).
