ERRATA

In the article "Attributional style and self-control behavior in depressed and nondepressed children" by Kaslow, *et al.* (*Journal of Abnormal Child Psychology*, 1988, 16, 163-175), the authors wish to correct the following errors: In Table IV, three of the means for the father's Attributional Style Questionnaire (ASQ) were incorrect. The correct means are as follows: non-clinic = 29.4, clinic total = 24.3, and entire sample = 26.4.

In the article "Effects of methylphenidate on inhibitory control in hyperactive children" by Tannock, *et al.* (*Journal of Abnormal Child Psychology*, 1989, 17, 473-491), the authors wish to correct the following errors: In Table II, line 1 (p. 484), the decimal points in values for the slope of the inhibition function (ZRFT) were incorrectly placed. The values for the slopes at placebo, 0.3 mg/kg, and, 1.0 mg/kg should read .196, .202, and .239 respectively.
