Re: “Material Cycling and Organic Evolution”, by Hiroshi Mizutani and Eitaro Wada, *Origins of Life* 12, 369-376 (1982)

On page 375, words immediately preceding formula (3) must read as follows: “may be difficult to devise:” instead of “may be difficult to:”.

Re: “Effect of High Atmospheric CO₂ Concentration on $\delta^{13}\text{C}$ of Algae”, by Hiroshi Mizutani and Eitaro Wada, *Origins of Life* 12, 377-390 (1982)

On page 384, the word “theexperiments” near the end of the legend for Figure 3 must be separated to form two words “the experiments”.

On page 385, the word “move” in the first line must be dropped. The line reads as follows: “If the alga uses carbon dioxide as the carbon source, Equation (6) becomes:”.

On page 387, insert “is” between “years ago” and “not known” in line 27. Relevant clause must read as follows: “whose existence earlier than 1.5 billion years ago is not known (Schopf, 1978)”.
