ERRATUM

Kinsella, K. 1992 Aging Trends: Jamaica. *Journal of Cross-Cultural Gerontology* 7(2): 177–184.

The second sentence on page 178 mistakenly reports data for women rather than for the entire population. The sentence should read “The present 65-and-over population of 162,000 is projected to rise 18 percent (to 191,000) by the year 2005, and gain another 102,000 members by 2020.” This correction does not change any conclusions drawn in the report.
