ERRATUM

In the paper "*Interaction of the effects of acetic acid and ethanol on inhibition of fermentation in Saccharomyces cerevisiae*" by M.V. Pampulha and V. Loureiro which appeared in *Biotechnology Letters* 11, 269-274 (April 1989) an author's correction arrived too late for insertion. The equation (1), which appears above figure 3 in that paper, should be written as follows:

$$\gamma_{et}^{aa} = \gamma_0 \exp\{-k_1 X_{et} - k_2 X_{aa} \exp(k_3 X_{et})\} \dots \dots \dots (1)$$
