Erratum

On Statistical Estimation in Fission Track Dating

I have just recognized an error which I overlooked in correcting galley proofs for my recent paper (Galbraith, 1984). The error is in equation A7 (p. 669) and should read correctly

$$\phi E(X)/E(Y) = \lambda_f(e^{\lambda_f \tau} - 1) a/\beta \sigma \lambda a' \quad (\text{A7})$$

REFERENCE

Galbraith, R. F., 1984, On Statistical Estimation in Fission Track Dating: *Math. Geology*, v. 16, n. 7, pp. 653–669.
