ERRATUM

Effect of Caffeine on Ceftriaxone Disposition and Plasma Protein Binding in the Rat

Kwang I. Kwon¹ and David W. A. Bourne^{2,3}

The corrected equation which should have appeared on p. 400⁴ follows:

$$\frac{dCu}{dC} = \frac{1}{2} + \frac{KC - KP_t + 1}{2[(KC - 1 - KP_t)^2 + 4KC]^{1/2}}$$

and

$$\begin{aligned} \frac{dC}{dt} = & K_{KP}C_{\text{kidney}} + K_{LP}C_{\text{liver}} + K_{GP}C_{\text{gut}} + K_{HP}C_{\text{heart}} + K_{LuP}C_{\text{lung}} \\ & + K_{BP}C_{\text{brain}} + K_{MP}C_{\text{muscle}} + K_{EP}C_{\text{etc}} \\ & - (K_{PK} + K_{PL} + K_{PG} + K_{PH} + K_{Plu} + K_{PB} + K_{PM} + K_{PE})C_{\text{plasma}} \end{aligned}$$
