Multiphoton-Induced X-Ray Emission and Amplification from Clusters

A. McPherson, T.S. Luk, B.D. Thompson, K. Boyer, C.K. Rhodes

Appl. Phys. B **57**, 337 (1993)

Due to printing errors equations (6) and (9) of this paper are incorrect and should read:

$$I_0 = \frac{e_e^2}{8\pi\alpha n^{2/3} \hbar r_0^2}, \quad (n \geq 3), \quad (6)$$

$$\frac{g_\lambda}{n_e} = \frac{\lambda_x^3}{8\pi Z\sqrt{2}} \left(\frac{A_\lambda}{c}\right) \left(\frac{\sigma_{ei}}{r_0^2}\right) \left(\frac{Mc^2 a_0}{e^2}\right)^{1/2} \left(\frac{r_0}{a_0}\right)^{1/2} \text{ cm}^2. \quad (9)$$
