Correction to Fractional Integration and Certain Dual Integral Equations

Math. Zeitschr. **98**, 83–88 (1967)

ROOP NARAIN KESARWANI

In my paper the following changes should be made.

The superscript of the operator I in Eq. (3.5), p. 86, should be $-c_1, c_1 - a_1$ instead of $-c_1, a_1 - c_1$.

The superscripts of the operators I in (3.9) and (3.13), p. 87, should be $-c_i, c_i - a_i$ instead of $-c_i, a_i - c_i$.

Lines 4 and 5 of Section 4, p. 87 should read: “(3.12) one can change $a_1, \dots, a_n$ and $b_{m+1}, \dots, b_q$ in (1.4) respectively into $c_1, \dots, c_n$ and $d_{m+1}, \dots, d_q$, and by applying (3.10) and (3.11) one can change $c_{n+1}, \dots, c_p$ and $d_1, \dots, d_m$ in (1.5) respectively into $a_{n+1}, \dots, a_p$ and $b_1, \dots, b_m$.”

In Formula (4.1), the first and second row of parameters should be replaced respectively by:

$$c_1, \dots, c_n, a_{n+1}, \dots, a_p \quad \text{and} \quad b_1, \dots, b_m, d_{m+1}, \dots, d_q.$$

The Formula (4.2) should be replaced by:

$$F(x) = \begin{cases} \prod_{i=1}^n I_{x^A}^{-c_i, c_i - a_i} \prod_{i=m+1}^q I_{x^A}^{-b_i, b_i - d_i} g(x) & 0 < x \leq 1 \\ \prod_{i=1}^m K_{x^A}^{b_i, d_i - b_i} \prod_{i=n+1}^p K_{x^A}^{c_i, a_i - c_i} h(x) & 1 < x < \infty. \end{cases} \quad (4.2)$$
